## **MATERIALS AND FINISHES**

## — GENERAL INFORMATION AND TERMS AND CONDITIONS OF SALE —

### WHO CAN PURCHASE FROM THE PRISON INDUSTRY AUTHORITY (PIA)

#### THE SALE OF CALPIA PRODUCTS IS GOVERNED BY APPLICABLE STATE LAWS.

- Purchase orders are solicited and accepted from agencies of the State of California and political subdivisions, including cities, counties, and special districts.
- Purchase orders may be accepted from agencies and political subdivisions of other states whose laws permit the purchase of prison-made goods.

#### SPACE PLANNING SERVICES

The Prison Industry Authority will provide the services of a qualified Space Planner for those agencies not using the services of the Department of General Services Real Estate Services Division. Services will be billed at the CALPIA prevailing hourly rate; and travel and per diem will be billed at the State approved rates or at actual cost, whichever is less. A Purchase Order or Letter of Intent will be required before any design work begins.

#### COMPUTER ASSISTED DESIGN (CAD)

Upon receipt of approved space plans, CALPIA or its authorized representative will produce installation drawings, an itemized parts list, and a price quotation. Price quotations are valid for ninety (90) days unless otherwise specified in writing.

The cost for preparing installation drawings is borne by CALPIA if they result in an order within ninety (90) days after release to the customer. CALPIA will charge for CAD work which does not result in a purchase order. Charges will be at CALPIA's prevailing rate. There will be a minimum two hour charge.

**Space plans and installation drawings are the property of CALPIA and may not be shared with any other systems furniture manufacturer, dealer or distributor without the prior written consent of CALPIA.**

#### INSTALLATION—

#### SYSTEM INSTALLATION MUST BE PERFORMED BY CALPIA OR A CERTIFIED INSTALLER.

- The price of the system includes normal installation. Additional costs for special conditions such as, but not limited to, after hours and/or weekend installations and installation barriers may be incurred and will be shown as a separate line item on the purchase order.
- CALPIA will not be obligated to repair or replace any part of the system if the product was not installed and used as recommended in CALPIA's written Specifier and/or Installation Manual.
- Neither the electrical hook up nor any data and communications cabling is included in the installation. These are the responsibility of the purchaser.
- Prior to system installation, the site and the access pathways must be completely cleared of all existing furniture and debris. Neither CALPIA nor its authorized installer will be responsible for moving any furniture or material that is not part of the system. Tenant improvements such as painting, carpeting and wallpapering must be completed before installation can begin. If the site is not ready, CALPIA and/or its authorized installers reserve the right to postpone the installation. Any charges incurred because of the delay will be billed to the customer.
- CALPIA and/or its authorized installer will require access to the site prior to installation.
- Pre-installation meetings with the customer and with relevant trades people are required.
- A secure staging area must be available for the receipt and storage of the product.
- CALPIA may be required to transfer product to storage at the customer's risk and expense if the customer is unable or unwilling to take delivery of the product as scheduled and CALPIA was not notified in advance in accordance with the stated delivery policy. CALPIA may invoice for storage fees if held by CALPIA and/or for partial payment depending upon the length of the delay.

## DELIVERY POLICY

- Delivery dates are quoted based on project size. If CALPIA cannot deliver product as scheduled due to causes beyond its reasonable control (such as casualty; labor disputes or accidents; inability to obtain necessary labor, material or transportation; or changes requested by the customer), the delivery date will be reevaluated and a new mutually agreeable date will be established.
- Except when CALPIA is receiving and installing the product, the customer may refuse delivery of product which is delivered in damaged condition. If delivery is accepted, the damage must be noted on the Bill of Lading at the time of delivery. The notation must be initialed by both the driver and the receiver. Concealed shortages or damage must be reported to CALPIA within ten (10) working days so a claim can be filed with the delivering carrier.
- When CALPIA is receiving and installing product, CALPIA or its authorized installer is responsible for noting damage and shortages. These items will be repaired or replaced during the installation if it is an occupancy issue or they will be included in the punch list.
- Customer initiated delivery date changes require a minimum of two (2) weeks notice prior to the scheduled installation date to delay delivery with out charge. If less notice is given, additional charges may be assessed.

## SHIPPING TERMS

- SYSTEM DELIVERY is F.O.B. destination within California. CALPIA has the right to determine the carrier, method of shipment, and routing. Extra expense resulting from the customer's request for a special carrier, shipping method, and/or routing will be billed to the customer.
- Out-of-State SYSTEM DELIVERY will be F.O.B. shipping point and does not include installation. CALPIA will ship prepaid and the freight charges will be added to the invoice. Estimated freight charges must be included as an additional line item on the purchase order.

- COMPONENT/ACCESSORY DELIVERY within California will be F.O.B. destination. Accessory orders will be delivered dockside unless otherwise specified. If set-in-place delivery (does not include installation) is required additional charges will be assessed. Contact the Century Systems team on your Sales Representative regarding set-in-place charges. Estimated freight charges and/or set in place charges must be included as an additional line item on the purchase order.
- Out-of-State COMPONENT/ACCESSORY deliveries will be F.O.B. shipping point and do not include installation. CALPIA will ship pre paid and the freight charges will be added to the invoice. Estimated freight charges must be included as an additional line item on the purchase order.

## PRICING POLICY

- **List prices and discounts are subject to change without prior notice.** Applicable prices are those prices in effect at the time of receipt of order or those established by awarded contract or bid.
- PAYMENT TERMS: Net 30, upon completion of installation unless otherwise negotiated. A complete installation is defined as an installation which is substantially complete allowing the customer to occupy the space. Nonoccupancy punch list items do not preclude invoicing.

CALPIA will directly process payment for product sold to the State of California through a request for transfer of funds from the State Controllers Office unless other terms are negotiated. Each invoice will reflect items shipped and the total amount transferred. Funds for System purchases installed by CALPIA will not be transferred until the system has been completely installed (as defined above).

## PRODUCT WARRANTY

**CALPIA WARRANTS TO THE ORIGINAL PURCHASER THAT PRODUCTS ARE FREE FROM DEFECTS IN MATERIALS AND WORKMANSHIP FOUND DURING NORMAL USAGE DURING THE SPECIFIED WARRANTY PERIOD. THE WARRANTY APPLIES FOR PRODUCTS INSTALLED AT THE SHIPPING DESTINATION ONLY.**

The customer agrees to use CALPIA products properly: not to remove or alter safety devices, warnings, or operating instructions placed on products; and to instruct employees as to the proper care and use of the products according to printed information furnished herewith. **Any reconfiguration (changes) of the product done by an installer not certified by CALPIA may invalidate the warranty on any part(s) affected by the change. Check with CALPIA before making any changes or repairing any components.**

If any defect is discovered within the warranty period (see below), CALPIA must be notified in writing within fifteen (15) days of the discovery of the defect. Notification should be sent to:

California Prison Industry Authority  
ATTN: Century Systems Coordinator  
560 East Natoma Street  
Folsom, CA 95630-2200  
FAX: (916) 358-2663  
PHONE: (916) 358-2214  
E-MAIL: [centurysystems@calpia.ca.gov](mailto:centurysystems@calpia.ca.gov)

## WARRANTY PERIODS (from delivery/final acceptance date)

- All System Components: **15 Years**  
(except as noted in the Century Systems catalog)
- Electrical/Lighting: **5 Years**
- Custom-made products not described in the CALPIA “Specifier” or “Product Updates” and products sold for use in the International market: **1 Year**

## CALPIA, AT ITS OPTION, WILL EITHER REPAIR OR REPLACE THE DEFECTIVE PRODUCT.

This warranty does not apply to alterations of the product not expressly authorized by CALPIA; abuse, neglect, or misuse of the product; or products considered to be consumable such as lamps, fabrics, etc. It also does not apply where the customer’s own materials were used at the specification of the customer. The product will not be considered to be defective, and CALPIA will not repair or replace it if the product was not installed and used as recommended in any printed CALPIA literature or plans.

Except as stated above, CALPIA makes no express or implied warranties as to any product and, in particular, makes no warranty of the fitness for any particular purpose. CALPIA shall not be liable for consequential or incidental damages arising from any product defect. Repair or replacement under this warranty is the customer’s sole remedy for a product defect.

## CUSTOMER’S OWN MATERIAL/CUSTOM PRODUCTS

A customer who requests a product using materials not standard to CALPIA must submit samples of the requested materials prior to order placement. CALPIA will determine if the material is suitable to manufacturing processes, determine if additional testing is required to meet specifications, and establish a price for using the material. If testing is required, the customer will pay all costs attendant to the testing including but not limited to shipping, manufacturing and test costs. If CALPIA agrees to use the material, CALPIA will have no responsibility for the condition, quality, value, performance, physical properties, or any other aspect of the product and CALPIA shall have no liability for any damages, injuries, or losses to the customer or to any third party that shall be caused by any use of the customer’s own material and the customer shall hold CALPIA harmless for such liability. CALPIA has the right to refuse to use the customer’s material if it will compromise the Underwriter’s Laboratory listings or other specifications. Use of Customer’s Own Material and custom products will affect the delivery date quoted.

## RETURN POLICY

The customer must request a return authorization in writing through the Century Systems Coordinator to return unused, undamaged product. If CALPIA agrees to the return, the customer must ship freight prepaid. Returns may be subject to a twenty five percent (25%) restocking charge.

CALPIA is not obligated to accept the return of non-standard or custom-made product.

## PERMITS

All necessary permits are the responsibility of the customer.

## GENERAL BID INFORMATION

The PRISON INDUSTRY AUTHORITY (CALPIA) is a State agency, part of the California Department of Corrections. The CALPIA Central Office is located at 560 East Natoma Street, Folsom, CA 95630-2200.

**Sales personnel** can be reached at (916) 323-2419.

**Century Systems personnel** can be reached at (916) 358-2214

FAX (916) 358-2663,

E-MAIL [centurysystems@calpia.ca.gov](mailto:centurysystems@calpia.ca.gov).

Federal ID # 52-1782035.

## Please waive bond requirements

Price quotes, delivery dates and terms are valid for ninety (90) days unless otherwise specified in the bid document. Terms and conditions expressed herein are hereby made part of the bid document unless otherwise noted.

## ORDERING INFORMATION

### How to Order:

All purchase orders should be sent to:

California Prison Industry Authority  
ATTN: Century Systems Coordinator  
560 East Natoma Street  
Folsom, CA 95630-2200  
FAX: (916) 358-2663

### All orders must include:

- Ship to and Bill to addresses (include zip code)
- Authorized signature to encumber the funds
- Agency funding source including fund, agency, fiscal year, reference (required for State agencies only)
- Agency contact person and public telephone and fax numbers including area code
- Bid number, if applicable
- CALPIA Project Number
- Purchase Order Number

### Systems Orders must also include:

- Approved installation drawings and specifications
- Approval of control agencies as required

### Component/Accessory Orders must also include:

- Complete part numbers, color and lock core number if applicable
- Copy of the space plan/installation drawing indicating where the component parts are to be installed

### Computer Assisted Design (CAD) and Space Planning orders must include:

- Not to exceed dollar amount for services

NOTE: No CAD or space planning services will begin without either a purchase order or a letter of intent. CAD work and space planning for State agencies must be authorized by the Department of General Services, Real Estate Services Division (RESA) or the agency must be exempt per the State Administrative Manual.

## CHANGE ORDERS AND CANCELLATIONS

**Requests for Change orders** must be submitted in writing. The original purchase order and CALPIA Project Number must be included. Changes must be approved and accepted by CALPIA. CALPIA will notify the customer if there is a change in price and an updated quote letter will be provided. If additional CAD work is required, there may be additional charges for design. Additional CAD work will be billed at CALPIA's prevailing rate. A new purchase order or an amendment to the original order may be necessary if additional parts or design time is required.

An accepted change order may change the delivery date depending on the project size and the proximity of the change to the scheduled ship date.

**Cancellation requests** must be submitted in writing. Cancellations shall be subject to a minimum charge and will be subject to reimbursement for costs incurred prior to the approval of the cancellation. CALPIA will determine whether the order can be canceled and what charges will be incurred by the customer according to CALPIA policy.

## RUSH ORDERS

CALPIA will make every attempt to accommodate rush order requests. However, rush orders may be assessed an additional charge which will be negotiated based on the size of the job, materials, special handling (i.e. air freight charges to expedite fabric) and requested time frames.

## CONTACTS:

### Century Systems Team at:

California Prison Industry Authority

# Modular System Furniture Reconfiguration Process

- Start with an accurate drawing for the area to be reconfigured. If you do not have a drawing, contact the CALPIA Office Systems Coordinators at (916) 358-2214.
- Verify the information on the installation drawing. Make sure that what is shown on the drawing is actually in place. CALPIA is not responsible for parts shown on the original installation drawings that are no longer in place. It is the customer's responsibility to verify components both on the drawings and any parts that may be in the customer's inventory.
- CALPIA can arrange for an inventory of the existing system or existing inventory. Services will be billed at the CALPIA prevailing hourly rate and travel and per diem will be billed at the State approved rates or at actual cost whichever is less.
- CALPIA provides Reuse Helpful Tips and Space Plan or Floor Plan Detail information available online at [www.calpia.ca.gov](http://www.calpia.ca.gov).
- Include the Installation Drawing with the additional components and changes noted on the drawings and/or a space plan of the area to be reconfigured. **CALPIA can not accept a list of parts without drawings.**
- Verify dimensions for all new areas. Note any existing obstacles such as thermostats, light switches, window ledges, fire extinguishers, window treatments, etc.
- If major changes are being made, it is the agency's responsibility to have the new plan reviewed by the appropriate fire safety professional. **Any change to the workstation footprint requires review.**
- New installation drawings will be generated and given to the Planner or agency representative with specifications and a price quote. The project will proceed as if it were a new project.
- The cost of tear down of existing furniture and the reinstallation of existing furniture will be the responsibility of the agency. Installation of new components is included in the cost of the components.
- Changes to systems furniture must be done by an authorized installer. Failure to use an authorized installer may invalidate the warranty. Quotes can be provided by CALPIA upon request.

CALPIA Number: \_\_\_\_\_

Date: \_\_\_\_\_

## PRODUCT SUMMARY

### features

---

- Lightweight aluminum welded frame offers strength and stability
- Core design adds rigidity
- Non-powered panels can be easily converted to powered panels
- All panels 24" wide or wider have power/data communications knockouts
- Meets or exceeds all California, ANSI/BIFMA, ASTM E-84 and UL1286 specifications
- Concealed top and side channels provide ample room for communications and fiber optic cabling
- Easy access to cables in top and side channels facilitates adding and/or relocating cables
- Interlocking leveler system speeds installation and ensures perfect system alignment
- Panel measurements are from center of hinge to center of hinge. Allow 2 1/4" inches for panel creep at T intersections and beginning and end of runs
- Panels have an aesthetically pleasing appearance
- Metal raceway covers have a positive lock feature to maintain the integrity and safety of the system
- One piece side trim will not crack or fall off preserving the safety and integrity of the electrical raceway
- Six inch raceway provides abundant space for data/communications cabling
- Recycled content 

### options

---

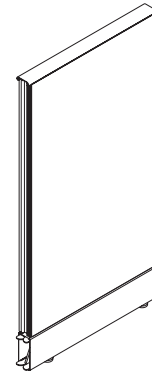

- Powered or non-powered (12" and 18" panels can not be powered)
- Fabric, open-frame, or glazed
- Many fabric grades with recycled content (see Colors section for swatchcards and fabric specifications)
- Four trim colors: Carbon (black); Slate (dark gray); Stone (light gray) or Sand (vanilla) (see Colors section for swatch cards)
- Panel Heights in inches: 32", 42", 48", 65", 68", 84"
- Panel Widths in inches: 12", 18", 24", 30", 36", 42", 48", 54", 60"
- Panels are 2 1/4" thick

**Design Tip:** It is best if the size of the panel is equal to the depth of the work surface adjacent to it. This will increase the overall stability and appearance of the project.

## SINGLE DOOR

### features

- Strong aluminum frame has a durable, scratch resistant powder coat paint wrinkle finish surface
- Available in four attractive trim colors
- Door opening dimension is 36"
- Door swing **IS** field changeable facilitating reconfigurations
- Upgraded ADA lever door handle is included
- Door is complete: *no additional parts are required*  
Door assembly includes: panel assembly (hinges and frame), door jamb, side rails and trim, door, door hardware, lock and keys, and threshold
- All doors have glazed insets
- Three types of 1/8" tempered glazed insets are available: clear, gray smoked, and opaque to match glazed panels

ITEM CODE	DESCRIPTION	LIST PRICE
D42L	Door, left swing	\$ 1,885
D42R	Door, right swing	\$ 1,885

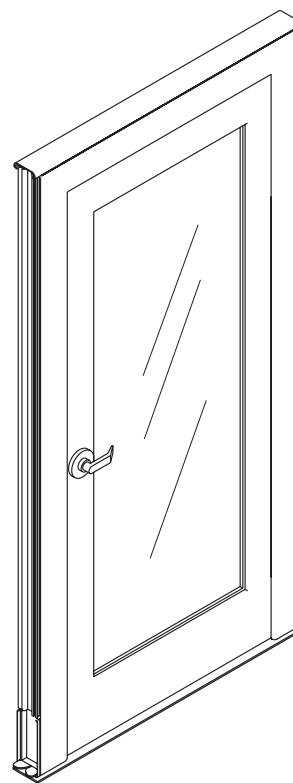

### To order, specify:

- trim color
- glazing type (clear, smoke, opaque)

### Design Notes:

- 42" is required to accommodate the 36" door.
- Adjacent panels must be 84" high.
- No power or communications raceway is available.
- Doors must be fully supported.

## PANEL COMPONENTS AND TRIM PARTS

Panel components and trim parts are available for reconfigurations. They do not need to be specified separately by the designer. They are included with the panel unless otherwise indicated.

### HINGES

Hinges are available separately or in kits for panel reconfigurations.

ITEM CODE	DESCRIPTION	LIST PRICE
H1	Hinge, 19 1/2" length	\$ 6

**To order, specify:** trim color

TT60	Top trim for 60" wide panel	\$ 60

**To order, specify:** trim color

### TOP TRIM, ELECTRICAL/DATA COMMUNICATIONS

This top trim is required for either an electrical or cable management pole. This trim comes in two pieces. A cutout is provided to accommodate a ceiling power entry and/or data/communications cable.

**Note: TTE 12 and TTE18 are for data/communications poles only.**

**Do not specify for electrical: 12" and 18" panels can not be powered.**

ITEM CODE	DESCRIPTION	LIST PRICE
TTE12	Top trim with cut out for 12" wide panel	\$ 14
TTE18	Top trim with cut out for 18" wide panel	\$ 22
TTE24	Top trim with cut out for 24" wide panel	\$ 28

TTE48	Top trim with cut out for 48" wide panel	\$ 52
TTE54	Top trim with cut out for 54" wide panel	\$ 58
TTE60	Top trim with cut out for 60" wide panel	\$ 64

**To order, specify:** trim color

**Design Note:** See "Electrical" section for details on the electrical system, power poles and installation.

## PANEL COMPONENTS AND TRIM PARTS

The Side Trim Kit finishes off a run of panels and includes a side trim piece and side trim cap. Side trim is specified separately and is not included with the panel. Not all panels require side trim. **Note: Side trim increases the panel width by 1/2".**

ITEM CODE	DESCRIPTION	LIST PRICE
ST32	Side trim kit for 32" high panel	\$ 32
ST42	Side trim kit for 42" high panel	\$ 35
ST48	Side trim kit for 48" high panel	\$ 37
ST65	Side trim kit for 65" high panel	\$ 40
ST68	Side trim kit for 68" high panel	\$ 42
ST84	Side trim kit for 84" high panel	\$ 50

**To order, specify:** trim color

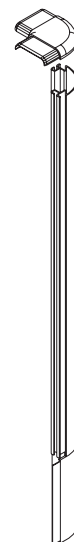

**SIDE TRIM KIT**

The Round Cover Kit connects two panels at a 90° angle, "L" configuration. The kit includes the cover, hinges, trim cap and corner raceway filler. To maintain the integrity of the electrical system the Round Cover must be installed.

ITEM CODE	DESCRIPTION	LIST PRICE
RC32	Round cover kit for 32" high panel	\$ 50
RC42	Round cover kit for 42" high panel	\$ 52
RC48	Round cover kit for 48" high panel	\$ 54

FC84	Flat cover kit for 84" high panel	\$ 55

**To order, specify:**

- trim color
- fabric grade and color

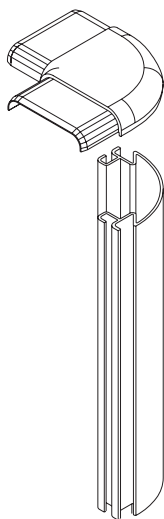

**FLAT COVER KIT**

## TRANSITIONS

Transition trim is required when panels of different heights intersect. Examples of transitions and the required trim pieces are illustrated in this section. When specifying transition trim begin specifying with the tallest panel. Transition kits include caps for all possible configurations.

### ROUND TRANSITION KIT

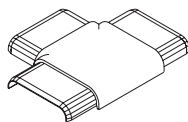

Round Transitions are required when two or more panels of different heights intersect at a 90° angle.

ITEM CODE	DESCRIPTION	LIST PRICE
RT8468	Round cover transition, 84" to 68" panels	\$ 24
RT8465	Round cover transition, 84" to 65" panels	\$ 27
RT8448	Round cover transition, 84" to 48" panels	\$ 41

## MOUNTING KITS

### WALL MOUNT KITS

The wall mount kit secures a panel to a wall. The kit includes mounting, top cap, and raceway cover.

ITEM CODE	DESCRIPTION	LIST PRICE
WK32	Kit for 32" high panel	\$ 42
WK42	Kit for 42" high panel	\$ 50
WK48	Kit for 48" high panel	\$ 56
WK65	Kit for 65" high panel	\$ 71
WK68	Kit for 68" high panel	\$ 73
WK84	Kit for 84" high panel	\$ 88

**To order, specify:** trim color

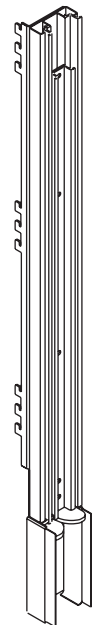

#### Design Notes:

- The wall mount kit adds 1 1/4" to the panel run.
- Specify the type of wall to which the wall mount will be secured. This will enable the installers to bring the proper mounting hardware.

### ZERO OFFSET T-MOUNT KIT

The zero offset T-Mount Kit allows a panel to "T" off one side of a group of work stations without effecting the work stations on the other side of the group. This is especially advantageous when reconfiguring a group of work stations. Stations on one side can be changed without disturbing adjoining stations. The 2 1/4" creep caused by the intervening panel is eliminated. The zero offset T-Mount Kit must be placed at a hinge.

ITEM CODE	DESCRIPTION	LIST PRICE
ZOTML32	Offset on left, 32" high panel	\$ 42
ZOTMR32	Offset on right, 32" high panel	\$ 42
ZOTML42	Offset on left, 42" high panel	\$ 50
ZOTMR42	Offset on right, 42" high panel	\$ 50
ZOTML48	Offset on left, 48" high panel	\$ 56
ZOTMR48	Offset on right, 48" high panel	\$ 56
ZOTML65	Offset on left, 65" high panel	\$ 71
ZOTMR65	Offset on right, 65" high panel	\$ 71
ZOTML68	Offset on left, 68" high panel	\$ 73
ZOTMR68	Offset on right, 68" high panel	\$ 73
ZOTML84	Offset on left, 84" high panel	\$ 88
ZOTMR84	Offset on right, 84" high panel	\$ 88

**To order, specify:** trim color

#### Design Notes:

- The Zero Offset T-Mount Kit adds 1 1/4" to the panel length.
- See illustrations for applications.
- Panel joined by Zero Offset T-Mount cannot be powered.

## TRIM CAPS

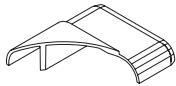

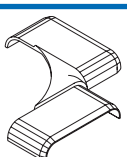

Trim Caps are textured plastic parts, color matched to the system trim. While trim caps are included with the panel trim, caps can be ordered as replacements for parts lost or damaged during reconfigurations.

### TRIM CAPS FOR SAME HEIGHT PANELS

ITEM	ITEM CODE	LIST PRICE	
X-Junction Cap	X	\$ 8.00	
T-Junction Cap	T	\$ 7.00	
L-Junction Cap	L	\$ 7.00

*Efficient*

## Work Surfaces

*Organize*

## PRODUCT SUMMARY

### features

- Available in a wide variety of shapes and sizes including:
  - rectangular
  - corner
  - transitional corner
  - notched
  - conference
  - counter tops
  - mobile
  - adjustable height
  - built-in key board platform
- Eight contemporary, attractive, high quality laminates with matching or coordinating T molded edges provide a non-glare, scratch and stain resistant surface.
- Cantilever bracket makes adjusting work surface heights easy. Work surfaces are adjustable in one inch increments.
- One pair of cantilever brackets is included with each work surface.
- Work surfaces meet State of California concentrated load test, uniform load test, and torque tests.
- The unique design of the work surface and panel eliminates the hassle and cost of relocating grommets to meet changing staff needs.
- Safe radius corners eliminate sharp edges and give the system a contemporary look.
- Concourse Group freestanding crank adjustable height tables for instant adjustability are also available. Designed to match the system work surfaces these freestanding tables have matching laminate and trim options. These are especially useful in areas where there are multiple users or to meet ADA (Americans with Disabilities Act) requirements.
- Add one of the versatile keyboard supports to make your 30" work surface a safe, efficient computer work area.
- All mobile tables are equipped with height adjustable legs with locking casters.

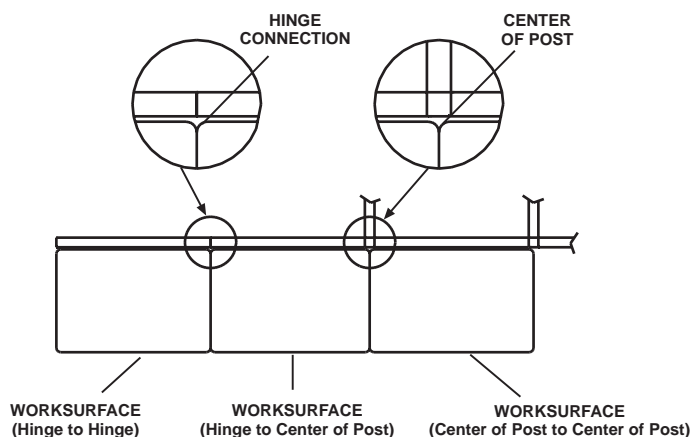

### options

- Work surface widths from 18" to 96"
- Work surface depths: 20", 24", 30", 36"
- Laminates in a choice of eight decorator colors
- Special transitional work surfaces offer greater design flexibility
- Mobile

### to order, specify:

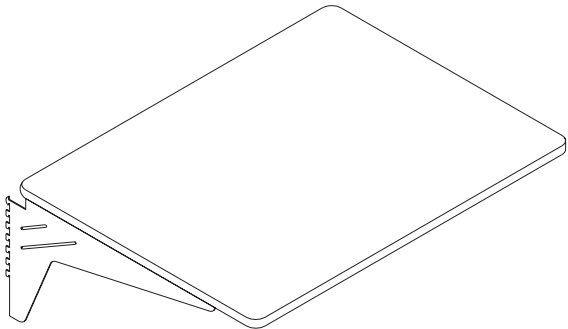

- laminate color
- trim color

To select the appropriate rectangular work surface for your application reference the drawing below:

### To order, specify:

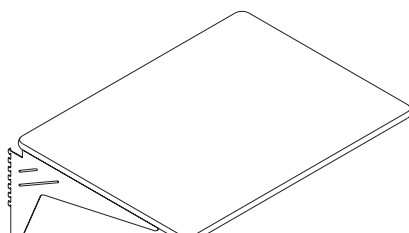

- laminate color
- trim color

### Design Notes:

- When suspended pedestal drawer units will be mounted under a work surface it is best to match the adjacent panel width to the work surface depth.
- When two suspended pedestal drawer units will be mounted under a work surface a work surface support panel is required.
- All 36" deep work surfaces require work surface support panels
- In some applications work surfaces 66" or wider require additional work surface support panels.
- All dimensions are nominal dimensions

## RECTANGULAR-WITH BUILT IN KEYBOARD SUPPORT

30" deep work surfaces can accommodate a built-in adjustable keyboard support. The built-in keyboard support adjusts ergonomically. The upgraded mechanism has a 6" infinite height adjustment range and front tilt adjustment of 15° (positive or negative) from center. The keyboard support can be ordered for left, right or center applications.

WORK SURFACES

### To order, specify:

- laminate color
- trim color

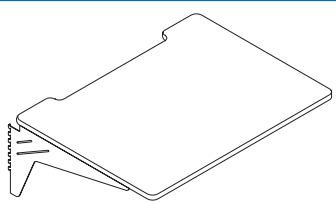

### Design Notes:

- The design notes for rectangular work surfaces apply.
- Work surfaces with the center keyboard can not accommodate suspended pedestals.

### Notes:

## RECTANGULAR-NOTCHED HINGE TO HINGE

This rectangular work surface has a cut out (2" deep X 19" wide) centered at the rear of the work surface. This allows paper to feed from under the work surface to a printer.

ITEM CODE	WIDTH	LIST PRICE	DEPTH
WSN3024	30"	\$ 266	 <p><b>24" DEEP WORK SURFACES</b></p>
WSN3624	36"	\$ 282

WSN4830	48"	\$ 347	
WSN5430	54"	\$ 381	
WSN6030	60"	\$ 392	

### To order, specify:

- laminate
- trim color

### Design Notes:

- Notched work surfaces are available for Center to Hinge, Hinge to Center, and Center to Center sizes also.

Contact PIA for details (916) 358-2733 or [www.centurysystems@pia.ca.gov](mailto:www.centurysystems@pia.ca.gov)

- Suspended pedestal drawer units can not be mounted on 30", 36" and 42" work surfaces as they would interfere with the paper feed function.

### Notes:

## CORNER UNITS

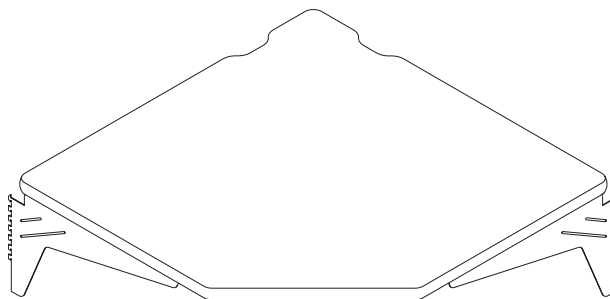

Used in many corner applications to accommodate monitors, there are many options: standard, transitional, wraparound, and with built-in keyboard supports. Corner units are notched to accommodate cables. Keyboard support mechanisms and platforms are not included except on the units with a built-in keyboard support. All keyboard options are height adjustable and have a 15° tilt. For further details regarding functionality please refer to the “Work Surface Accessories” section (pages 46-47) . Keyboard supports must be ordered separately.

42"	30"	WWS4230	not available	\$ 478
48"	30"	WWS4830	not available	\$ 498

**To order, specify:**

- laminate
- trim color

**Design Notes:**

Not all corner units can accommodate a keyboard support. Whether or not a keyboard support can be used and which style is noted in the "Keyboard Options" column. Work surfaces will interfere with the height adjustment on some keyboards. An (\*) indicates limited adjustability.

**Design Tips:**

- If a corner work surface does not work for an application and a monitor and keyboard are needed, use rectangular work surfaces and a "Make a Corner" to create the desired configuration.
- Use the Built-in keyboard option when the work station is small and there is not enough room to accommodate the pull out keyboard.
- Use the built-in keyboard support when constant keying required.

# FIXED TABLES

## CONFERENCE TABLES

Conference tables attach to 30" or 36" wide panels and to rectangular work surfaces. The adjustable center column leg, included with the table, adjusts 5 inches from 27" to 32" high. The flush mount kit required to mount the conference surface to a rectangular work surface must be specified separately. (See page 48).

FIXED TABLES continued next page

## FIXED TABLES continued

### HALF CIRCLE TABLE

Half circle tables span two 24" or two 30" deep work surfaces with an intervening panel. For example, the 50" wide work table would span two 24" deep work surfaces plus one 2 1/4" thick panel and the 62" table spans two 30" deep work surfaces plus one 2 1/4" thick panel. Adjustable height conference table leg and mounting hardware are included.

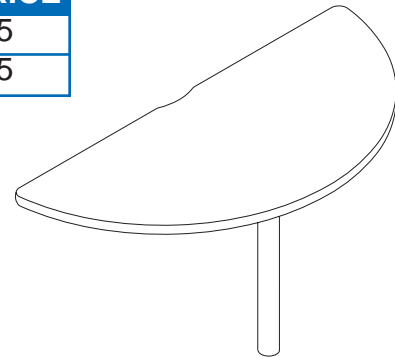

WIDTH	ITEM CODE	DESCRIPTION	LIST PRICE
50"	WSHC24	Half circle, 50" wide	\$ 435
62"	WSHC30	Half circle, 62" wide	\$ 475

#### To order, specify:

- laminate
- trim color

**Design Tip:**  
If you need more flexibility use mobile tables.

### QUARTER CIRCLE TABLE

The width of the quarter circle table is equal to the panel width, the depth of the quarter circle is equal to the work surface depth.

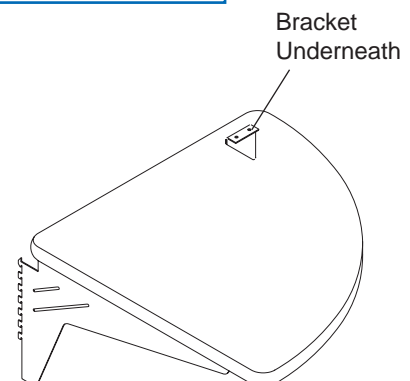

WIDTH	DEPTH	ITEM CODE	DESCRIPTION	LIST PRICE
24"	24"	WSQL24	24" x 24", left	\$ 210
24"	24"	WSQR24	24" x 24", right	\$ 210
30"	30"	WSQL30	30" x 30", left	\$ 240
30"	30"	WSQR30	30" x 30", right	\$ 240

#### To order, specify:

- laminate
- trim color

**Design Tip:**  
Quarter circles can be panel mounted in a corner with panels of equal widths to make a corner table.

## COUNTER TOPS

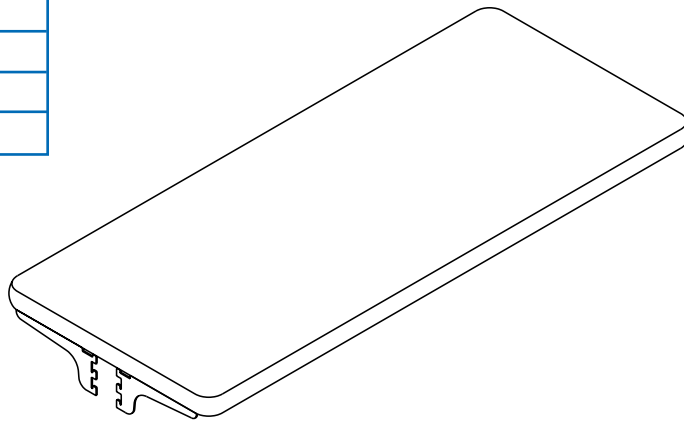

Counter tops are often used in reception/public areas or between work stations to provide a shared surface. Generally counter tops are mounted on 42" high panels. Counter tops mount on top of panel trim. All counter tops are 15" deep, centered on a panel unless otherwise specified. Counter top included the mounting brackets.

### STANDARD STRAIGHT TOPS

WIDTH	ITEM CODE	LIST PRICE
24"	CT2415	\$ 179
30"	CT3015	\$ 186
36"	CT3615	\$ 198
42"	CT4215	\$ 206
48"	CT4815	\$ 211
54"	CT5415	\$ 219
60"	CT6015	\$ 226
72"	CT7215	\$ 242

#### To order, specify:

- laminate
- trim color

#### Design Note:

Four (4") inches are required below the counter top to accommodate the bracket. Take this in to account when planning storage such as tack boards, mini shelves or paper management.

#### Design Tip:

Add a counter top task light or an articulating task light to provide needed light on the work surface. See lighting section for details.

COUNTER TOPS continued next page

## COUNTER TOPS *continued*

### CORNER COUNTER TOP

WIDTH	ITEM CODE	LIST PRICE
24"	CTC24	\$ 280
30"	CTC30	\$ 307
36"	CTC36	\$ 325

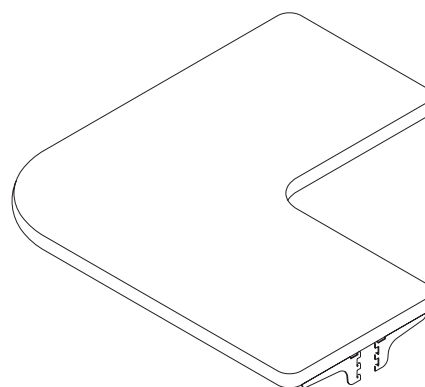

#### *To order, specify:*

- laminate
- trim color

#### **Design Note:**

Width denotes panel width.

### RADIUS COUNTER TOP

The radius counter top overhangs a panel end by 6".

PANEL WIDTH	ITEM CODE	DESCRIPTION	LIST PRICE
24"	CTR3115	Top 31" long for 24" panel	\$ 190
30"	CTR3715	Top 37" long for 30" panel	\$ 202
36"	CTR4315	Top 43" long for 36" panel	\$ 210
42"	CTR4915	Top 49" long for 42" panel	\$ 215
48"	CTR5515	Top 55" long for 48" panel	\$ 223
54"	CTR6115	Top 61" long for 54" panel	\$ 230
60"	CTR6715	Top 67" long for 60" panel	\$ 254

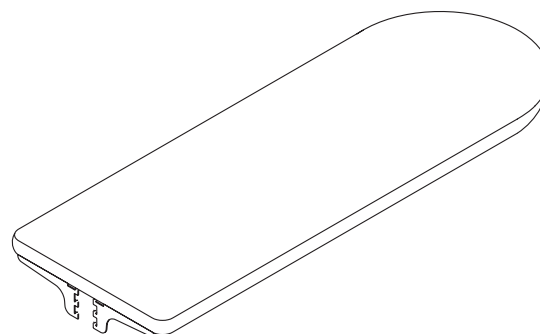

#### *To order, specify:*

- laminate
- trim color

#### **Design Tips:**

- Add a counter top task light or an articulating task light when you need light on the work surface. (See "lighting" section for details).
- For a more interesting effect specify a radius counter top one size longer for a 12" overhang (maximum).

## MOBILE TABLES

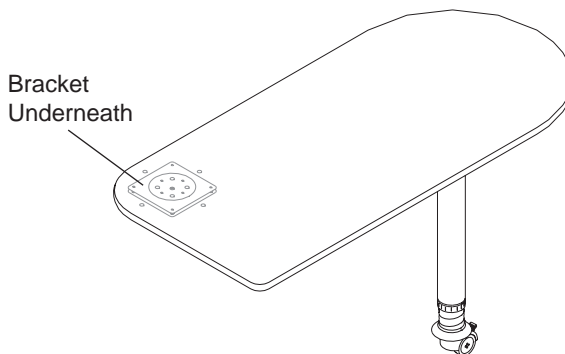

### TUCK AWAY™ TABLES

The Tuck Away™ table is a work surface on a castered leg that tucks conveniently out of the way when you don't need it. You'll never know its there. then, when you need the extra work surface for a project or a conference, roll it out. A swivel mechanism attaches the table to the work surface and an adjustable height castered leg supports the table surface. The tuck away work surface is 20" deep.

WIDTH	ITEM CODE	DESCRIPTION	LIST PRICE
37"	WSTAR37	20" deep, 37" wide, right	\$ 350
37"	WSTAL37	20" deep, 37" wide, left	\$ 350
43"	WSTAR43	20" deep, 43" wide, right	\$ 363
43"	WSTAL43	20" deep, 43" wide, left	\$ 363
47"	WSTAR49	20" deep, 47" wide, right	\$ 383
47"	WSTAL49	20" deep, 47" wide, left	\$ 383

#### To order, specify:

- laminate
- trim color

#### Design Notes:

- The width of the work surface must be longer than the width of the Tuck Away™ table. For example, the WSTAR37 can be used on the 42" wide or wider work surface.
- The minimum required for swing out clearance is the width of the work surface minus 10".
- Nothing that would interfere with the swing should be mounted under the work surface, for example: center drawers, keyboard supports, or pedestal units.
- Pencil/Box/File (PDM 24030612) mobile pedestal units can be used with the Tuck Away™ table.
- Tuck Away™ tables can be installed on work surfaces 42" wide or wider.

#### CAUTION:

**THE TUCK AWAY™ TABLE WILL NOT SUPPORT A PERSON OR HEAVY EQUIPMENT.**

## SPECIAL WORK SURFACES *continued*

### DRAFTING STATION

#### **features:**

- Freestanding height adjustable drafting station adjusts from 29 1/2" H to 42 1/2" H (13").
- Work surface manually tilts up to 45°.
- Work surface and side support laminates match system laminates.
- Optional pull out bottom shelf is available. Recessed out of the way with a specially designed paper catch, you can conveniently store "E" sized drawings. Shelf is specified separately.

#### DRAFTING WORK STATION

WIDTH	ITEM CODE	LIST PRICE
60"	DWS60	\$ 4,550

#### OPTIONAL SHELF

WIDTH	ITEM CODE	LIST PRICE
60"	DWSS60	\$ 695

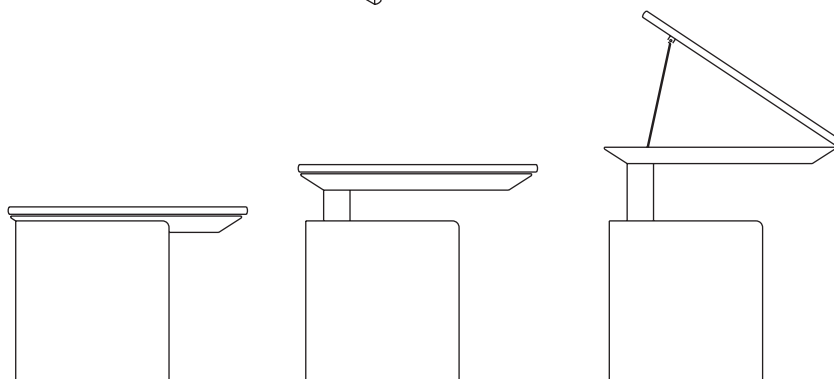

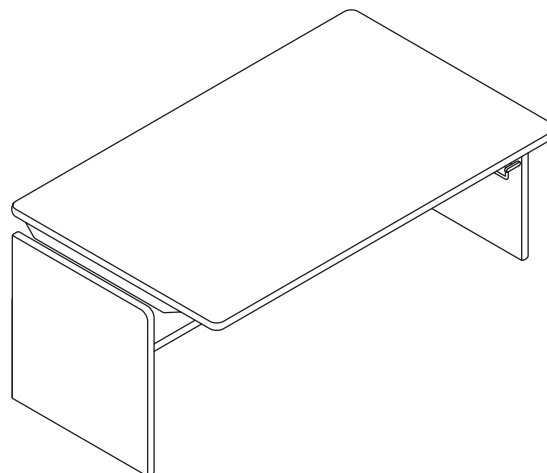

#### **To order, specify:**

- laminate
- trim color

#### **Design Tip:**

Check the "Lighting" section or PIA Accessories Catalog for Articulating Task Lights. These are an excellent way to add light to the work area when overhead task lighting is unavailable.

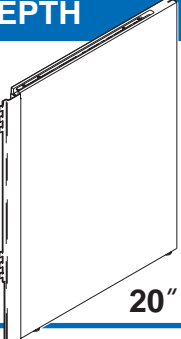

## WORK SURFACE ACCESSORIES

### SUPPORT PANELS

Work surface support panels provide additional support and stability. Standard support panels serve as a modesty panel. the radius support panels provide leg clearance under the work surface. Work surface support panels are available for work surfaces set at three standard heights, 27", 29 1/2" and 36".

### SUPPORT PANELS

WORK SURFACE HEIGHT	ITEM CODE	DESCRIPTION (ORIENTATION)	LIST PRICE	WORK SURFACE DEPTH

27"	SPLR2427	Left hand	\$ 217	24" DEEP
27"	SPRR2427	Right hand	\$ 217	
30"	SPLR2430	Left hand	\$ 232	
30"	SPRR2430	Right hand	\$ 232	
27"	SPLR3027	Left hand	\$ 242	30" DEEP
27"	SPRR3027	Right hand	\$ 242	
30"	SPLR3030	Left hand	\$ 258	
30"	SPRR3030	Right hand	\$ 258	

#### To order, specify:

- laminate
- trim color

#### Design Note:

Work surface support panels are required when two pedestals are suspended side by side on a work surface. Either standard or radius support panels can be used.

#### Design Tips:

- A standard work surface support panel provides a clean finished end to a work surface when it does not end at a panel.
- Work surfaces can be 6" deeper than the work surface.

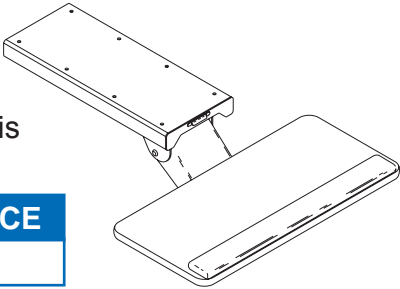

**WORK SURFACE ACCESSORIES *continued***

**KEY BOARD SUPPORTS**

Pull out and fixed adjustable keyboard supports are mounted on fully articulating mechanisms. The upgraded mechanism allows the user to rotate the keyboard 360° completely out of the way, has positive or negative keyboard tilt or 15° for individual position preference, has a 6" height adjustment, and features a slim profile which increases leg area under the work platform. The advanced mechanism design minimizes keyboard bounce.

**PULL OUT STANDARD ADJUSTABLE KEYBOARD SUPPORT WITH WRIST REST**

Available in laminate to match your work surfaces and a color coordinated padded wrist rest, this support mounts on the upgraded articulating mechanism. The platform is 10 1/2" X 21 1/2". An optional adjustable mouse pad offered by PIA can be easily mounted on this keyboard tray.

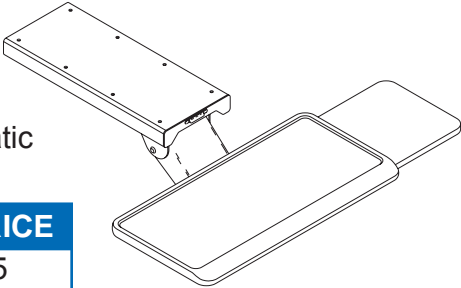

ITEM CODE	DESCRIPTION	LIST PRICE
AK1	Keyboard support with wrist rest	\$ 325

**To order, specify:**

- laminate

**PULLOUT KEYBOARD SUPPORT SYSTEM**

Molded keyboard tray incorporates sliding mouse tray for right or left hand applications. Mouse tray conveniently stores under the keyboard tray. Keyboard and mouse trays have anti-skid, anti-static surfaces. Available in black only.

ITEM CODE	DESCRIPTION	LIST PRICE
AK2	Keyboard support system	\$ 475

**To order, specify:** not required

**Design Note:** Not all corners accommodate pull out keyboard supports. Refer to the corner description to determine which keyboard option can be specified.

**Design Tip:** Additional keyboard support systems and keyboard accessories are available. Please refer to the "Accessories" catalog behind the "Compliments" tab, PIA Electronic Catalog ([www.pia.ca.gov](http://www.pia.ca.gov)) or call your Sales Representative at (916) 358-2733 for details.

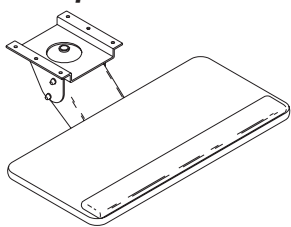

**BUILT-IN KEYBOARD SUPPORT**

Keyboard support, 9 3/4" X 23 1/4" is used with rectangular or corner work surfaces and they are available in a laminate to match your work surface. The support includes a color coordinated, padded wrist rest. ***This part is included when the built-in work surface is specified.***

ITEM CODE	DESCRIPTION	LIST PRICE
FK1	Built-in keyboard support	\$ 285

**To order, specify:**

- laminate

## WORK SURFACE ACCESSORIES *continued*

### ADJUSTABLE MOUSE TRAY

The adjustable Mouse tray can be installed on an AK1 keyboard support or any work surface. It measures 8" x 8" and features an integral friction surface for smooth mouse operation. The mouse pad swivels and tilts for easy operator positioning and comfort.

ITEM CODE	DESCRIPTION	LIST PRICE
MP1	Adjustable Mouse Tray	\$ 165

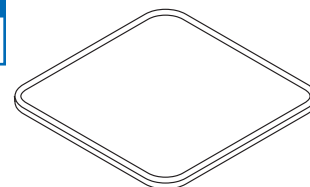

#### *To order, specify:*

- laminate

#### **Design Note:**

When purchased with the Century System the Mouse Pad can be installed with your system. If ordering separately from a system furniture order, use the PIA "Accessories" catalog, reference style number 5620. For assistance with these orders contact your Sales Representative or the Sales Department at (916) 358-2733.

### MAKE A CORNER (Corner Converter)

Convert a 90° corner into a usable diagonal corner work area by adding the "Make a Corner" converter. This strong, powder coat painted metal oblong quickly blends two 24" or two 30" work surfaces. Or you can use the Make a corner to convert a work surface with a built in keyboard cut out to a solid surface. When in place you can add an articulating keyboard mechanism to complete your work area. The Make a Corner measures 29.5" by 10" for use on 1 1/4" thick work surfaces. This can be purchased as an accessory using the PIA "Accessories" catalog, style #5630.

ITEM CODE	DESCRIPTION	LIST PRICE
MC1	Make A Corner (corner converter)	\$ 90

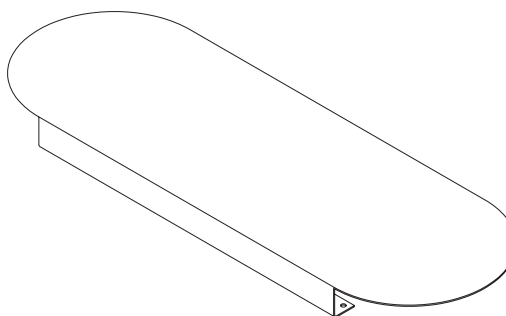

#### *To order, specify:*

- trim color

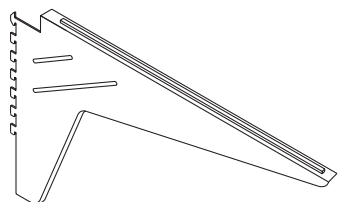

#### **Design Tip:**

Specify a metal color that will blend with the laminate color rather than matching the system trim color.

## REPLACEMENT PARTS

These components are included with the product when a system is installed. However new parts may be needed to reconfigure an area or to replace parts lost or damaged during a move.

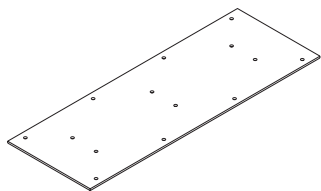

### HANG-ON BRACKET

The hang-on brackets (cantilever) attach work surfaces to panels. Brackets are packaged in pairs, one right and one left.

ITEM CODE	DESCRIPTION	LIST PRICE
HB1	Cantilever bracket (pair)	\$ 150
HB2	Cantilever bracket (pair)	\$ 150

**To order, specify:** trim color

**Note:** HB2 is the new style bracket supplied on product installed after April, 2001.

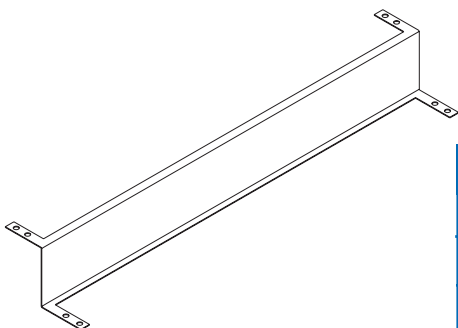

### FLUSH MOUNT KIT

The flush mount kit connects a conference table to a work surface. It may also be required when two rectangular work surfaces join. The kit includes mounting hardware. Flush mount is finished in black only.

ITEM CODE	DESCRIPTION	LIST PRICE
FKM1	Flush mount kit	\$ 31

**To order, specify:** not required

### DROP MOUNT KIT

The drop mount kit connects a work surface mounted 3" above or below an adjacent work surface. The kit includes mounting hardware. The drop mount must be specified left or right and match the work surface depth.

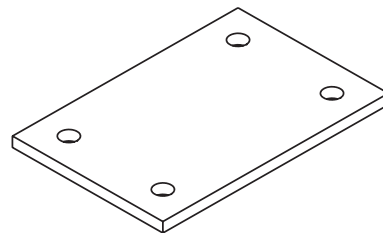

ITEM CODE	DESCRIPTION	LIST PRICE
DKL20	Left hand, for 20" deep work surface	\$ 31
DKR20	Right hand, for 20" deep work surface	\$ 31
DKL24	Left hand, for 24" deep work surface	\$ 35
DKR24	Right hand, for 24" deep work surface	\$ 35
DKL30	Left hand, for 30" deep work surface	\$ 41
DKR30	Right hand, for 30" deep work surface	\$ 41

**To order, specify:** trim color

## REPLACEMENT PARTS *continued*

### ALIGNMENT PLATE KIT

The work surface alignment plate kit securely connects two work surfaces at the front edge. The alignment kit includes mounting hardware. Black only.

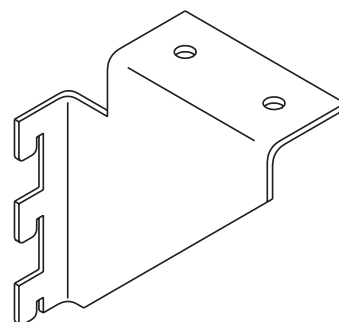

ITEM CODE	DESCRIPTION	LIST PRICE
AP1	Work surface alignment kit	\$ 12

*To order, specify:* not required

### WORK SURFACE END SUPPORT BRACKET

The work surface end support bracket secures a work surface to the adjacent panel. These brackets should be used whenever possible. The work surface depth must be equal to the width of the adjacent panel. Brackets are either left or right handed. Work surface end support brackets help stabilize the system.

ITEM CODE	DESCRIPTION	LIST PRICE
ESBL1	Support bracket, left hand	\$ 22
ESBR1	Support bracket, right hand	\$ 22

*To order, specify:* trim color

### CENTER COLUMN LEG

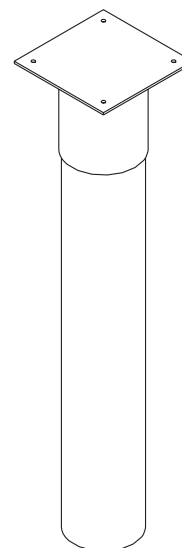

For use with conference tables, rectangular work surfaces, fixed half circle or tear drop tables. Adjusts 5" from 27" to 32".

ITEM CODE	DESCRIPTION	LIST PRICE
CCL1	Center column leg	\$ 165

*To order, specify:* trim color

**Design Tip:** You can convert a mobile table to a fixed table by adding height adjustable legs and alignment plates (API).

## STORAGE AND ORGANIZATION PRODUCT SUMMARY

### features

---

Wide variety of storage options including:

- Suspended pedestal drawer units in four configurations
  - Mobile pedestal drawer units in four configurations
  - Pedestal drawer units with reference shelves
  - Open shelves in two heights
  - Flipper cabinet units to fit panels 24" and wider
  - Hang on file bin units to fit panels 24" and wider
  - Freestanding file bins
  - Center drawers
  - Tack boards
  - Coat hooks
  - Mini shelves
  - Name plates
- 
- Available in four attractive trim colors
  - Powder coat, scratch resistant wrinkle finish offers durability
  - Files *include* file bars and/or dividers
  - Shelves and Flipper cabinets *include* panel guards
  - Components meet or exceed all required load tests
  - Combine components to maximize storage

For complete details on each type of storage component refer to the individual Product Summaries

### options

---

- Four trim colors
- Pedestal configurations
- Eight laminate colors for the mini shelves
- Forty-eight (48) standard panel colors and thirteen (13) attractive accent colors for tack boards and inserts

## PEDESTALS PRODUCT SUMMARY

### *features*

---

- Available in four drawer configurations
  - Box /file (6" drawer/12" drawer)
  - Box/box/file (6" drawer/6" drawer/ 12" drawer)
  - Pencil/box/file (3" drawer/6" drawer/12" drawer)
  - File/file (12" drawer/12" drawer)
- Available in two depths, 20" and 24"
- 12" drawers (file) have full extension slides
- All drawers operate on smooth ball bearing slides
- Units meet State of California load tests
- All drawer units include locks which can be keyed to your specifications
- Available in four attractive trim colors
- Powder coat, scratch resistant wrinkle finish offers durability
- Pedestal units can be either suspended from a work surface or mobile
- Easy touch release reference shelf has a 12" x 12" work area with a removable plexi-glass insert to protect documents. Available on suspended units only.
- File drawers include hanging file bars for easy side to side or front to back filing
- Pedestal drawers coordinate with PIA Concourse Group pedestal units
- Drawer units are 15" wide
- Drawer units with (6") drawer include one pencil tray.

### *options*

---

- Suspended or mobile
- With or without reference shelf
- Four trim colors
- 20" or 24" depth
- Pedestal configuration

## PEDESTAL DRAWER UNITS

### SUSPENDED

Drawer units are suspended on work surfaces removing the unit from the floor. All units are lockable and are equipped with file bars which allow side to side or front to back filing. Units are 15" wide and can be placed side by side with proper panel or work surface support.

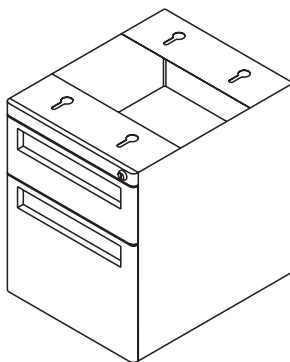

ITEM CODE	CONFIGURATION	HEIGHT	DEPTH	LIST PRICE
PDU200612	Box/File	19 <sup>3</sup> / <sub>8</sub> "	20"	\$ 364
PDU20030612	Pencil/Box/File	22 <sup>1</sup> / <sub>4</sub> "	20"	\$ 489

PDU241212	File/File	25 <sup>1</sup> / <sub>8</sub> "	24"	\$ 438

**To order, specify:** trim color

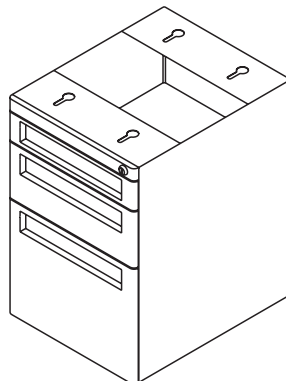

#### Design Notes:

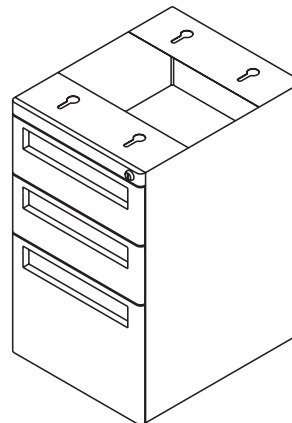

- Pencil/Box/File, Box/File and Box/Box file configurations include a removable pencil tray insert.
- Suspended drawer pedestal units should be positioned next to a systems panel or work surface support panel. The systems panel should be equal in width to the adjacent work surface depth— or a support panel is required. Two pedestal units can be placed side by side on one work surface however, this configuration requires additional support.
- For reconfigurations or additions to a work station, include the lock number needed to match other existing keyed components within the work station.

# PEDESTAL DRAWER UNITS *continued*

## MOBILE

Mobile pedestal units are available in three drawer configurations. All units are equipped with locks and have two fixed braking and two swivel (BIFMA approved) casters. Units are 15" wide and are 24" deep.

ITEM CODE	CONFIGURATION	DEPTH	LIST PRICE
PDM24030612	Pencil/Box/File	24"	\$ 725
PDM24060612	Box/Box/File	24"	\$ 755
PDM241212	File/File	24"	\$ 665

*To order, specify:* trim color

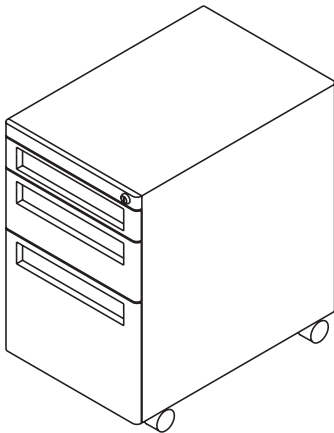

### Design Notes:

- When purchasing mobile pedestal units for use in an existing Century Systems installation, you may want to coordinate your existing and new locks. If you want the new pedestal unit lock to match an existing lock, you must specify the "lock core" number on your drawing. The lock core number is indicated on the key and the face of the lock.
- Pencil/Box/File, and Box/Box/File configurations include a removable pencil tray insert.

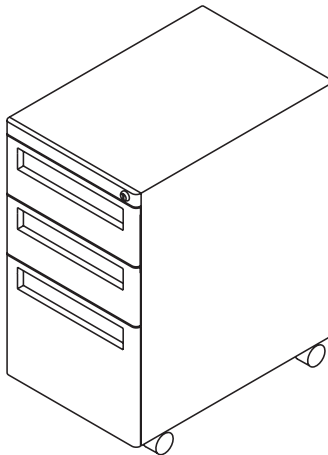

### Design Tip:

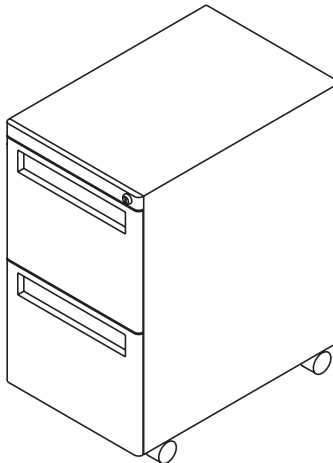

Mobile pedestal units may be purchased individually. Look in the PIA "Accessories" catalog or the "Concourse Computer Furniture" catalog.

## SHELF UNITS PRODUCT SUMMARY

### features

---

- Shelves are constructed out of 16 gauge sheet steel
- Every shelf comes with a 2" high panel guard to protect your panels from wear
- Meets State of California Uniform load test
- Available in two sizes: full and half height
- Full height shelf can be converted into a Flipper Cabinet by adding a Flipper Door Unit
- Side panels constructed of textured plastic with curved lines complement and update system aesthetics
- All shelves are 12 1/2" deep and accommodate large binders

### options

---

- Available in seven widths: 24", 30", 36", 42", 48", 54" and 60"
- Available in a choice of four trim colors: Sand, Slate, Stone, Carbon (refer to color section for selection)

**NOTE:** The shelf units have been redesigned as of July 1998. The new design supersedes shelving units previously supplied. The original shelf units have laminate clad side panels. These will be available for a limited time to match existing installations. For price and availability contact your Sales Representative at (916) 358-2733 or the **Century Systems** Coordinator at (916) 358-1761 or e-mail [centurysystems@pia.ca.gov](mailto:centurysystems@pia.ca.gov).

#### **Design Tip:**

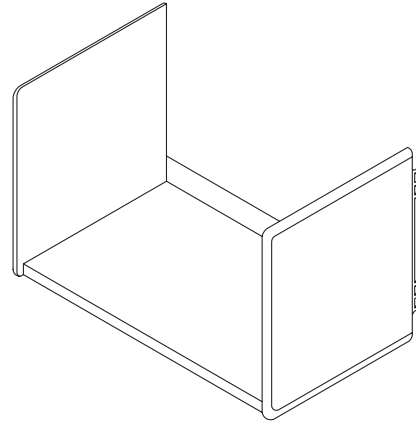

Be sure to include shelf dividers.  
One size shelf divider fits both full and half height shelves.

## SHELVES

### FULL HEIGHT SHELF UNIT

Full height shelf unit is 15" high and 12½" deep.

ITEM CODE	WIDTH	LIST PRICE
SUP2415	24"	\$ 122
SUP3015	30"	\$ 125
SUP3615	36"	\$ 128
SUP4215	42"	\$ 131
SUP4815	48"	\$ 134
SUP5415	54"	\$ 137
SUP6015	60"	\$ 140

**To order, specify:** trim color

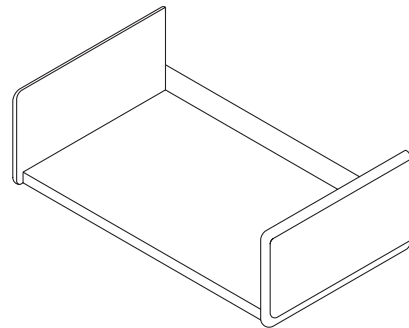

**Design Note:**

Width of shelf is equal to the panel width.

### HALF HEIGHT SHELF

Half height shelf is 8" high and 12½" deep.

ITEM CODE	WIDTH	LIST PRICE
SUP2408	24"	\$ 114
SUP3008	30"	\$ 117
SUP3608	36"	\$ 120
SUP4208	42"	\$ 123
SUP4808	48"	\$ 126
SUP5408	54"	\$ 129
SUP6008	60"	\$ 132

**To order, specify:** trim color

**Design Note:**

Width of the shelf is equal to the width of the panel.

**Design Tips:**

- Shelf dividers are available. they fit both the full and half height shelves.
- Shelf dividers are not included with the shelf and must be ordered separately.
- Shelf units, full and half height can be combined in many configurations with other storage options. Refer to Storage Configuration Guide (page 66-68) for suggestions.

## FLIPPER CABINETS PRODUCT SUMMARY

### features

---

- Shelves are constructed out of 16 gauge steel
- Every shelf comes with a 2" high panel guard to protect panels from wear
- Meets State of California Uniform load test
- Side panels constructed of textured plastic with curved lines complement and update system aesthetics
- Rack and pinion mechanism eliminates racking
- Light weight metal doors
- All cabinet doors are lockable and will be keyed to your specifications
- The fabric insert enhances the appearance as well as providing additional tackable space
- Choose from 48 panel fabrics or 13 accent fabrics for the insert
- Fabrics coordinate with PIA seating fabrics
- Unique design provides metal hand grip protecting fabric from wear and dirt
- Cabinets (inside dimensions), 12 1/2" deep and 15" high facilitate large binder storage
- Doors open on top of cabinet for optimum fire and earthquake safety
- Durable, scratch resistant power coat wrinkle finish is attractive and helps prolong the life of the system

### options

---

- Available in seven widths: 24", 30", 36", 42", 48", 54" and 60".
- Available in two styles: painted metal and painted metal with a fabric insert
- Choice of four trim colors: Sand, Stone, Slate and Carbon (refer to "Finishes" section for samples)
- Fabric inserts available in any of 48 panel fabric colors or 13 special accent fabric colors (refer to "Finishes" section for color swatches)

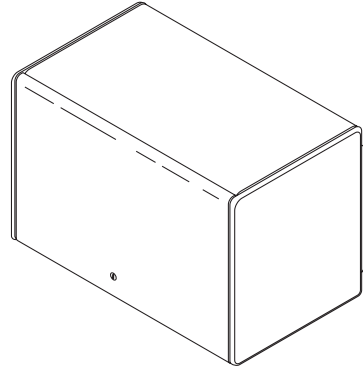

**NOTE:** The flipper cabinets have been redesigned as of July 1998. The new design supersedes flipper cabinet units previously provided. The original flipper units have laminate clad side panels and either laminate clad doors or fabric doors. These will be available for a limited time to match existing installations. For price and availability contact either your Sales Representative at (916) 358-2733 or the Century Systems Coordinator at (916) 358-1761 or send e-mail to [centurysystems@pia.ca.gov](mailto:centurysystems@pia.ca.gov).

## FLIPPER CABINETS

### FLIPPER CABINETS: METAL, PAINTED (outside dimensions: 15" x 13 3/4" D x panel width)

Durable, scratch resistant powder coat painted metal doors are practical and attractive. Doors open on top of the cabinet maximizing interior storage space. All doors include a lock keyed to your specifications.

ITEM CODE	WIDTH	LIST PRICE
FDCP24	24"	\$ 334
FDCP30	30"	\$ 345
FDCP36	36"	\$ 365
FDCP42	42"	\$ 378
FDCP48	48"	\$ 391

**To order, specify:** trim color

### FLIPPER CABINET: METAL WITH FABRIC INSERT (outside dimensions: 15" x 13 3/4" D x panel width)

Durable, scratch resistant powder coat painted metal doors with a tackable fabric insert add color and interest to the work station. The unique door design provides a metal hand hold to protect the fabric from wear and dirt. All doors include a lock keyed to your specifications.

ITEM CODE	WIDTH	GRADE B	LIST PRICE	
			ACCENT & GRADE C	GRADE D

#### Design Note:

Flipper doors require 13 1/2" front clearance to open.

#### Design Tips:

- Shelf dividers are available. They are not included with the flipper cabinet and must be ordered separately.
- Flipper cabinets over corner work surfaces are difficult to reach. Consider using a corner mini-shelf in place of a flipper cabinet to help organize the space and move miscellaneous small items off the work surface.

#### To order, specify:

- fabric grade and color
- trim color

#### Design Notes:

- "Expressions" is a selection of fabrics specially selected for use as an accent on tack boards, flipper cabinets and hang-on file bins. Expressions fabrics match PIA's Seasons seating fabric.
- Use a 16" tack board between the overhead component and the work surface when you have 65" or higher panels. Use a 12" tack board when you use 48" high panels.

**Design Tip:** Add tack boards on the outside of a cubicle. In addition to adding interest with an accent color you provide a central location to post important general information. It will help reduce clutter and protect the panels.

## MISCELLANEOUS STORAGE PRODUCTS

Many miscellaneous storage products can be found in the PIA "Accessories" catalog. When these components are to be installed with your system installation they will be included. If you are ordering additional components separate from a systems furniture order, use the PIA "Furniture" or "Accessories" catalogs. For assistance with these orders contact your Sales Representative or the Sales Department at (916) 358-2733.

### FREESTANDING FILE BINS

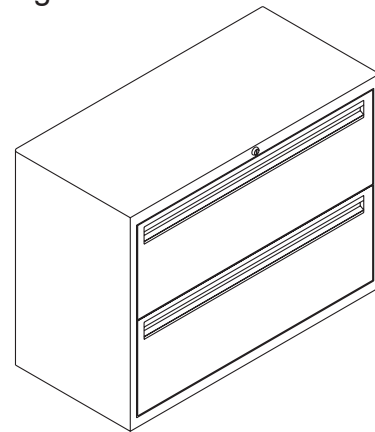

- Durable scratch resistant powder coat paint in an attractive, practical wrinkle finish
- Two locking drawers
- Can be used under a work surface set at standard height
- Units are 27 1/2" high and 18" deep
- Counter weights and drawer mechanism prevent tipping

ITEM CODE	WIDTH	LIST PRICE
FB30	30"	\$ 695
FB36	36"	\$ 755
FB42	42"	\$ 805

**To order, specify:** trim color

**Design Note:** When freestanding file bins are specified for under a work surface, order a unit at least 4" shorter than the work surface.

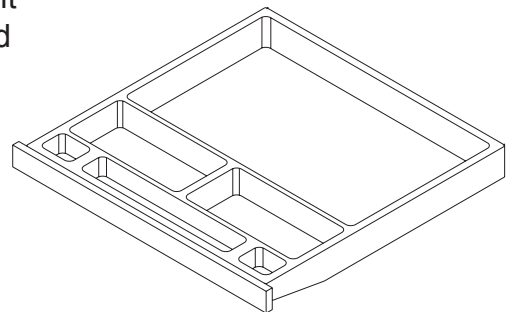

### CENTER DRAWER UNIT

- Six molded compartments specially designed to accommodate storage for disks, note paper, post-it notes, pens and pencils and other commonly used work tools.
- Mounts under any work surface
- Smooth, easy glides
- Front is finished with durable, scratch resistant powder coat paint
- Dimensions: 19 1/2" W x 18" D x 2 1/4" H

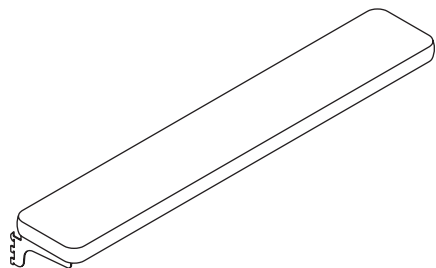

ITEM CODE	LIST PRICE
CD2	\$ 135

**To order, specify:** trim color

- trim color

#### **Design Tip:**

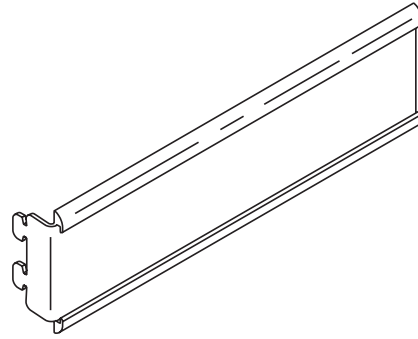

Mini-shelves extend the usable work area by moving small items such as staplers, disk holders, paper clip holders, and personal items off the work surface. Corner Mini-shelves make previously unusable space accessible.

## MISCELLANEOUS STORAGE PRODUCTS *continued*

### NAME PLATE

Designed to mount on the panel at the hinge, the name plate accepts either plain paper, card stock or plastic engraved name plates. It is 8 1/2" long (the width of standard paper) and 2 1/2" wide. Names can easily be printed and changed as often as necessary. A clear plastic insert to protect the paper is included.

ITEM CODE	LIST PRICE
NP	\$ 50

*To order, specify:* trim color

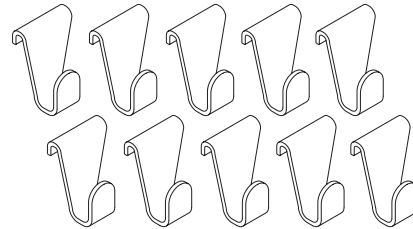

---

### HOOKS

- Held securely in place by top trim
- Use to hang coats, pictures or white boards

ITEM CODE	LIST PRICE
HK1	\$ 30 (per box of 10)

*To order, specify:* trim color

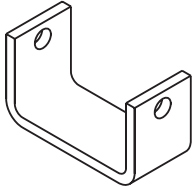

---

**Notes:**

## REPLACEMENT PARTS

Parts are available for reconfigurations to replace lost/damaged parts. These parts are included with the system when it is originally specified and installed.

### SHELF BRACKET

The shelf bracket is used to connect two adjacent shelves and/or flipper cabinets. It adds strength to the system. These are specified whenever the design requires it.

ITEM CODE	LIST PRICE
SB1	\$ 16
SB2	\$ 16

**To order, specify:** trim color

#### **Design Note:**

The SB1 is used with the old style shelves and flipper cabinets (laminated side panels with laminate or fabric faced doors) on projects installed before July, 1998. The SB2 is used with the current shelves and flipper cabinets (plastic side panels with metal doors).

There are some cases when the project design is such that additional support is recommended to maximize panel stability. This is necessary when the storage load is not secured on the opposite side of the panel. The accompanying drawings illustrate when storage support is required or recommended.

### WALL STORAGE SUPPORT

A wall storage support is recommended on either 65" or 68" high panels where there are two adjacent full banks of storage and a flipper cabinet or shelf unit at the top.

ITEM CODE	DESCRIPTION	LIST PRICE
WSS65	For 65" high panel	\$ 60
WSS68	For 68" high panel	\$ 60

**To order, specify:** trim color

#### **Design Note:**

These components will be added to the installation drawings/specifications by PIA or its design representatives as required.

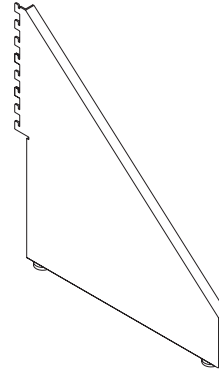

## REPLACEMENT PARTS *continued*

### PANEL LEG SUPPORT

A Panel Leg support is recommended to maximize panel stability when there is a single bank of storage without components on the opposite side to balance the load. The bank of storage must have a current style hang-on file bin at the bottom of the storage stack.

ITEM CODE	DESCRIPTION	LIST PRICE
PLL	Panel leg, left	\$ 75
PLR	Panel leg, right	\$ 75

**To order, specify:** trim color

### Notes:

---

**Notes:**

A stylized illustration of a lightning storm. The background is a dark, purple-to-black gradient. Several bright, jagged white lightning bolts are depicted, striking downwards. Overlaid on this background are four text elements: 'Electrical Systems' in the top right, 'Power' in the upper left, 'Management' in the center, and 'Protection' at the bottom. The bottom of the image features a dark, jagged silhouette resembling a mountain range or a stormy horizon.

Systems

Power

Management

Protection

## ELECTRICAL COMPONENTS PRODUCT SUMMARY

### **features**

---

- Eight wire, four circuit system provides more capacity per power entry and includes four hot wires, two neutrals, and two grounds, one of which is shielded
- Track is totally shielded from the system and will not interfere with data/communications transmission
- Ceiling, floor and wall power entries are available facilitating design and installation
- Electrical system is Underwriter's Laboratory (U.L.) recognized
- Directional electrical system means it cannot be powered from multiple power sources
- Panels 24" and wider can be powered. Power is available to both sides of the panel
- Tracks can be ordered separately to easily convert a non-powered panel to a powered panel
- Duplex receptacles with different circuits (1, 2 and 3, 4) help prevent circuit overloads

Detailed electrical system specifications are located at the end of the "Electrical" section.

***Note: Electrical and Data/Communications termination is not included in the panel installation. This is the responsibility of the end user. Any changes in the electrical configuration must be made by a licenced electrician or certified installer. All hard wire connections must be made by a licenced electrician.***

## PANEL WIRING

### PANEL ELECTRICAL ASSEMBLY

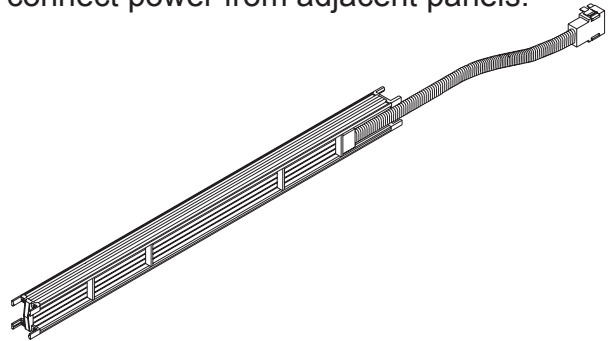

(includes track, track to track cable, and connector)

The panel electrical assembly with a connector routes power from one panel to another. The track snaps into the factory installed mounting brackets on the base of the panel. The end of the connector cable attaches to the next track. Panels that are 12" and 18" in width cannot be powered. Use a pass through cable to connect power from adjacent panels.

ITEM CODE	DEPTH	LIST PRICE

PANEL WIRING continued next page

## PANEL WIRING continued

### POWER ENTRY

The power entry cable connects to the building electrical source.

### SIDE/BASE FEED

The side/base feed routes through the raceway and connects to power in the floor or wall. The 6' long liquid tight power entry cable connects to the system via a rotating 180° connector that has the unique ability to pass through the raceway knockout. The 180° connector facilitates installation, reconfiguration, and reduces inventory costs because the power entry can be installed either right or left without modification. Separate parts are not needed.

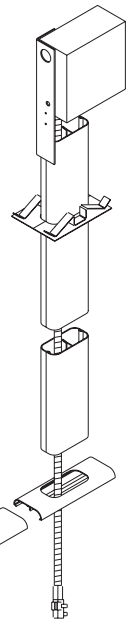

ITEM CODE	LIST PRICE
TPEFS	\$ 240

### TOP/CEILING FEED

The top (ceiling) feed routes power from the ceiling through a power pole to the panel. The cable is 15' long and will work with a 12' high ceiling. For a ceiling higher than 12', contact PIA. The top feed includes the power pole, top trim pieces, J box for the electrical connection, and the ceiling tile bracket. Power poles are available in three lengths, 48", 67" and 99". The pole length is determined by the panel height and ceiling height. To figure the required pole length subtract the panel height from the ceiling height:

$$\text{Ceiling height (in inches)} - \text{Panel height (in inches)} = \text{Pole length}$$

- If the result of the pole length calculation is 48" or less, specify the 48" pole. If the result is between 49" and 67" specify the 67" pole. If the result is between 68" and 99" specify the 99" pole.
- Power poles are installed approximately 2" from the edge of a panel.
- Power pole installation information is located at the end of the "Electrical System" section.

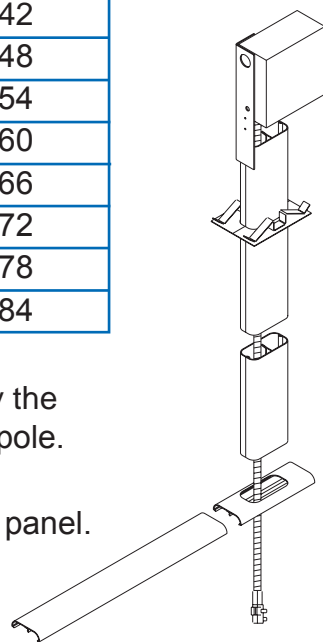

### **To order, specify:**

- trim color

#### **Design Tip:**

For most applications plan four work stations per power entry. This is a general rule and the actual planned power load will determine how many entries are required.

*PANEL WIRING continued next page*

## CABLE MANAGEMENT POLE

The cable management pole routes data/communications cabling from the ceiling into the panel system. Cable management poles are available in two lengths, 67" and 99". The pole length is determined by the panel height and ceiling height. To determine the required pole length subtract the panel height from the ceiling height:

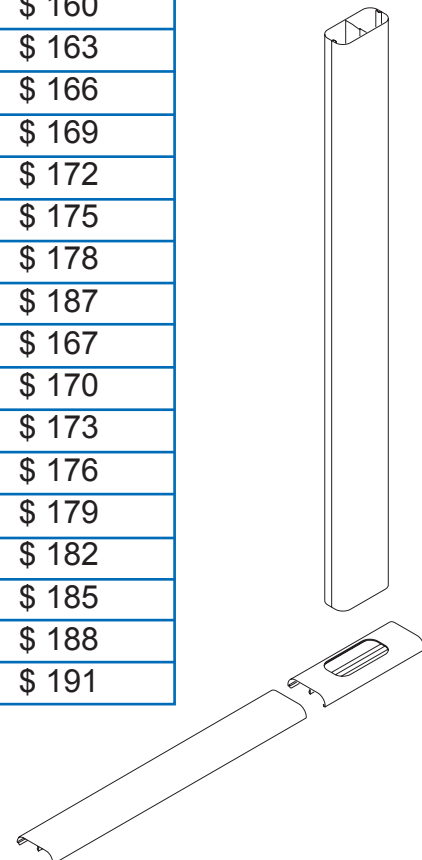

$$\text{Ceiling height (in inches)} - \text{Panel height (in inches)} = \text{Pole length}$$

- If the result of the pole length calculation is 48" or less, specify the 48" pole. If the result is between 49" and 67" specify the 67" pole. If the result is between 68" and 99" use the 99" pole.

## ELECTRICAL RECEPTACLES

### DUPLEX

Each duplex receptacle connects to two circuits. Receptacles are split to maintain balanced loads regardless of reconfigurations. Each circuit is 20 amps and not more than 13 receptacles should be planned for each circuit. The type of equipment planned will determine how many circuits are required. A maximum planned load of 16 amps per circuit is suggested.

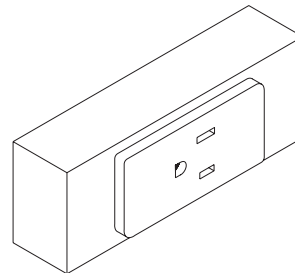

Receptacles are color coded and clearly marked with the circuit number. Receptacles marked “I” and “II” have a black case. These are utility circuits and should be used for such items as task lights, calculators and other small office equipment. Receptacles marked “III” and “IIII” have an orange case. These should be used for computers, printers and other computer related hardware.

ITEM CODE	DESCRIPTION	LIST PRICE
TPERD12	Utility Circuits “I” and “II”	\$ 23
TPERD34	Computer type equipment, circuits “III and “IIII”	\$ 23

### SIMPLEX RECEPTACLES

A single “simplex” receptacle presents one circuit for use. this 20 amp circuit is normally a dedicated circuit for equipment with heavy power requirements such as copy machines. This receptacle requires a separate power entry.

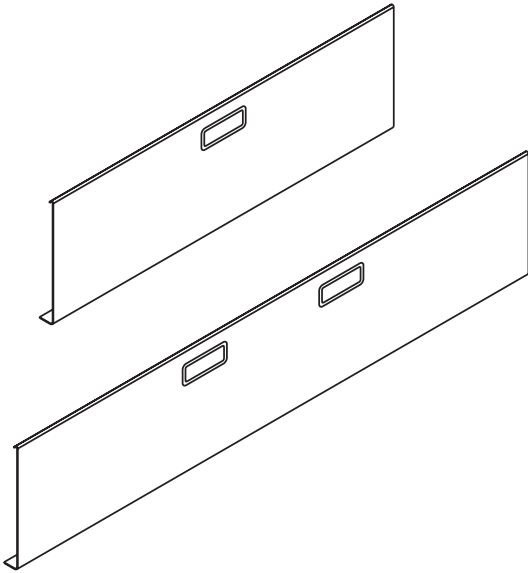

ITEM CODE	DESCRIPTION	LIST PRICE
TPER20	Single 20 amp circuit	\$ 85

## RACEWAY COVERS

The steel raceway cover has a positive lock feature that prevents the cover from accidentally becoming dislodged if hit by equipment or vacuum cleaners. This preserves the integrity of the electrical system and maintains and preserves Underwriters Laboratory (UL) rating.

Raceway covers are included in the panel price. They can be ordered as replacements if covers are lost or damaged during a reconfiguration.

### ELECTRICAL

Raceway covers for 24" and 30" wide panels have one knockout and raceways covers 36" and wider have two knockouts. Raceway covers for 12" and 18" wide panels do not have knockouts.

Knockouts are provided to accommodate electrical receptacles. Color and texture matched knockout covers are included. These are easily removed and replaced to add or change receptacle locations.

RACEWAY COVERS  
continued next page

## RACEWAY COVERS *continued*

### COMMUNICATIONS

Communications covers have additional knockouts to accommodate data/communications connections. There are additional knockouts below the standard electrical knockout(s). Communications covers are available for panels 24" or wider. 24" and 30" wide covers have one additional knockout. Covers 36" or wider have two additional knockouts. PIA does not supply data/communication connectors. These are provided by the customer's data/communications vendor.

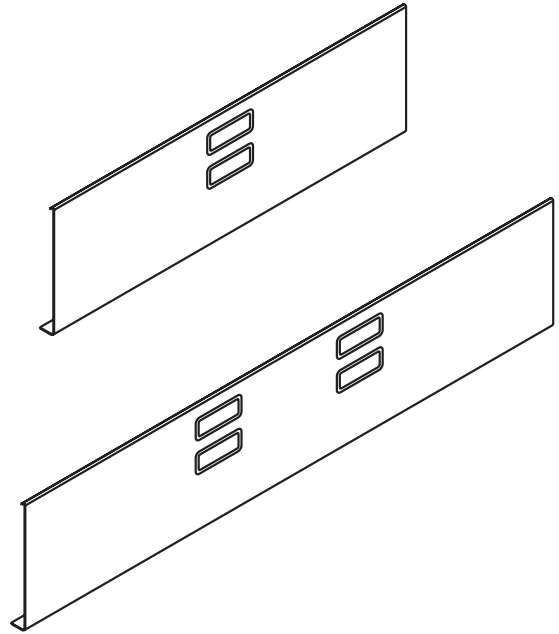

ITEM CODE	DEPTH	LIST PRICE
CC24	24"	\$ 46
CC30	30"	\$ 50
CC36	36"	\$ 54
CC42	42"	\$ 58
CC48	48"	\$ 62
CC54	54"	\$ 66
CC60	60"	\$ 70

**To order, specify:** trim color

#### **Design Note:**

Specify a Communications Cover wherever data/communications is specified. This will facilitate the installation.

## CENTURY SYSTEMS ELECTRICAL INSTALLATION RESPONSIBILITIES

The following information details the California Prison Industry Authority's (CALPIA) power pole installation policy.

A 12 foot power entry cable, two part power pole, and tile trim covers are provided by CALPIA. The power entry cable consists of an eight wire, four circuit system housed in flexible conduit. A wiring diagram is attached to each cable.

### INSTALLERS' RESPONSIBILITIES

- Route the power entry cable from the base of the panel to the top of the panel where indicated on the final approved installation drawings.
- Connect the power entry cable to the power track in the panel.
- Route the cable through the top trim and snap the trim into place.
- Install raceway covers.
- Test electrical system

### LICENSED ELECTRICIAN'S RESPONSIBILITIES

- Verify power feed locations
- Determine where to cut a hole in the ceiling tile to insure the power pole will be vertical and plumb. Cut the ceiling tile and trim the power pole to the proper length if necessary.
- Place the power pole into the top of the panel (oval cutout in top trim) and through the ceiling tile.
- Route the power entry cable through the power pole and connect it to the building power at the J-box (J-box not provided by CALPIA).
- In the event a base feed is required, connect to the building power and trim cord to the length requested by the customer.
- Attach seismic bracing to the top of the power pole per local building codes. The seismic bracing includes downward pressure on the pole.
- Install the ceiling tile trim covers.
- Replace all trim and raceway covers if removed after their installation by CALPIA.
- Contractors are responsible for cleaning up their own debris.

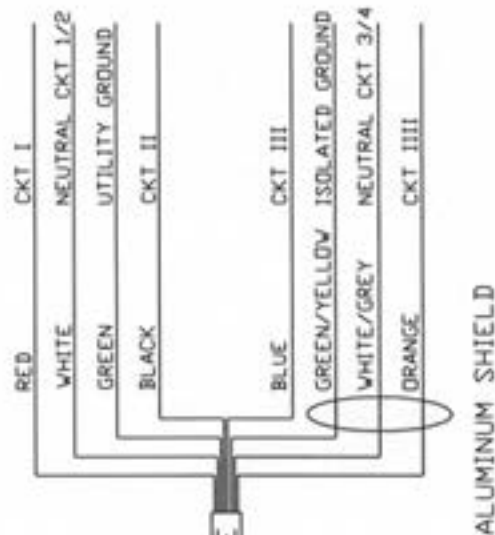

### DATA/COMMUNICATION VENDOR RESPONSIBILITIES

- Replace all trim and raceway covers if removed after their installation by CALPIA.
- Contractors are responsible for cleaning up their own debris
- CALPIA does not supply any data/communications connectors

**NOTICE: STANDING OR SITTING ON PANELS AND/OR WORK SURFACES WILL DAMAGE THE PRODUCT. RESULTING DAMAGE CHARGES INCLUDING SHIPPING AND LABOR WILL BE BILLED BACK TO THE RESPONSIBLE PARTY.**

- \*\*\*4 CIRCUITS AVAILABLE
- \*\*\*13 RECEPTACLES PER CKT
- \*\*\*DO NOT EXCEED 16 AMPS PER CKT.
- \*\*\*CKTS I AND II ARE UTILITY CKTS.
- \*\*\*CKT III IS FOR PRINTERS, FAX, ETC.
- \*\*\*CKT IIII IS FOR COMPUTER USE

20 AMP RECEPTACLE REQUIRES SEPARATE HOME RUN

Trac-Pac 8

# TRAC-PAC

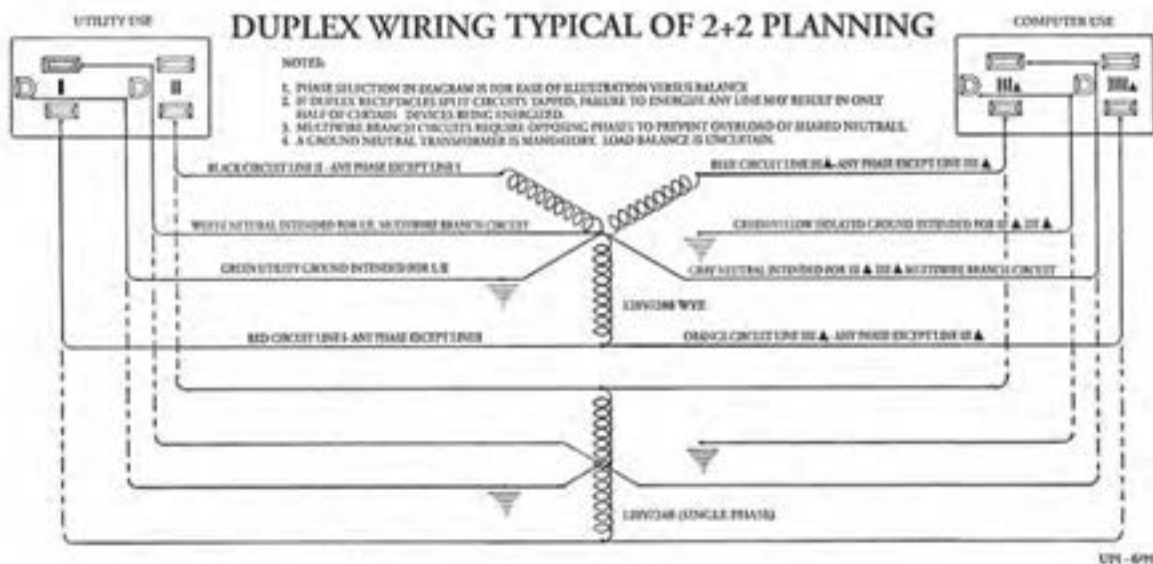

## HARMONICS PROTECTION

### Two Plus Two In Only Two Devices

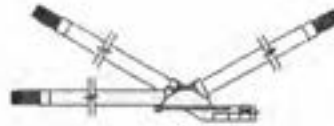

Trac-Pac has a patented feature embodied in two duplex devices:

Only two circuits share each neutral. The worst case load is 28 amperes in a #12 neutral. These two devices greatly simplify ordering, specification, stocking, use, and understanding. Four circuits make choosing confusing. These two devices make the choice simple – computer or utility?

Two split duplexes give each user access to four circuits. Occasional breaker overloads call for simply unplugging offending equipment. Rewiring, new access, new duplexes, or reconfigure of power can commonly be avoided.

# ROTATING POWER ENTRY

## ELECTRICAL INSTALLATION GUIDE

### INSTALLATION

#### 180 DEGREE ROTATING POWER ENTRY INSTALLATION AND REMOVAL INSTRUCTIONS

##### TO INSTALL POWER ENTRY.

Step 1. With power track on floor, remove panel-to-panel power connector, exposing blades at end of track. Remove corresponding outlet filler plate from raceway cover.

Step 2. Rotate turret until conduit lays as illustrated.

Step 3. Insert the power entry, front first, through the raceway cover as illustrated.

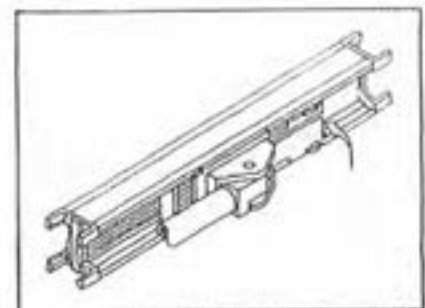

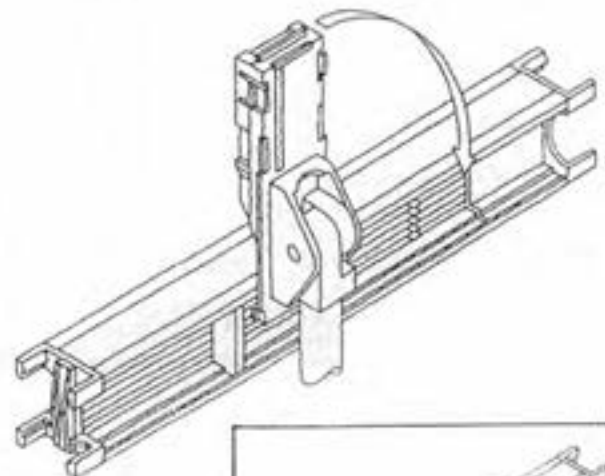

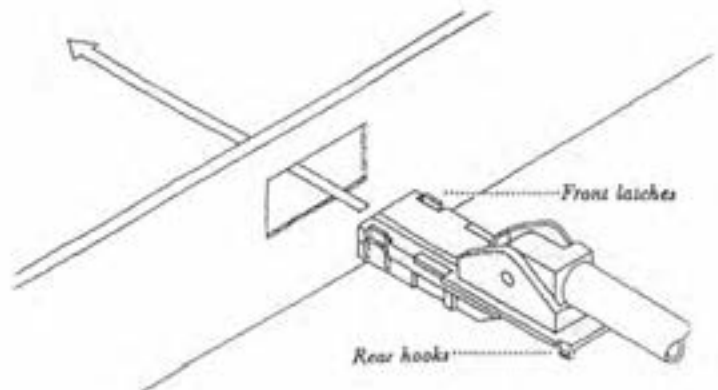

Step 4. Orient the polarization stripe on the face of the assembly with the red stripe in the track.

Step 5. Engage rear hooks by rotating assembly perpendicular to track and inserting hooks between aluminum rails and into grooves. Rotate assembly back to the parallel to engage hooks.

Step 6. Slide assembly left or right to position slots in bottom of assembly over blades in track and push until front latches engage.

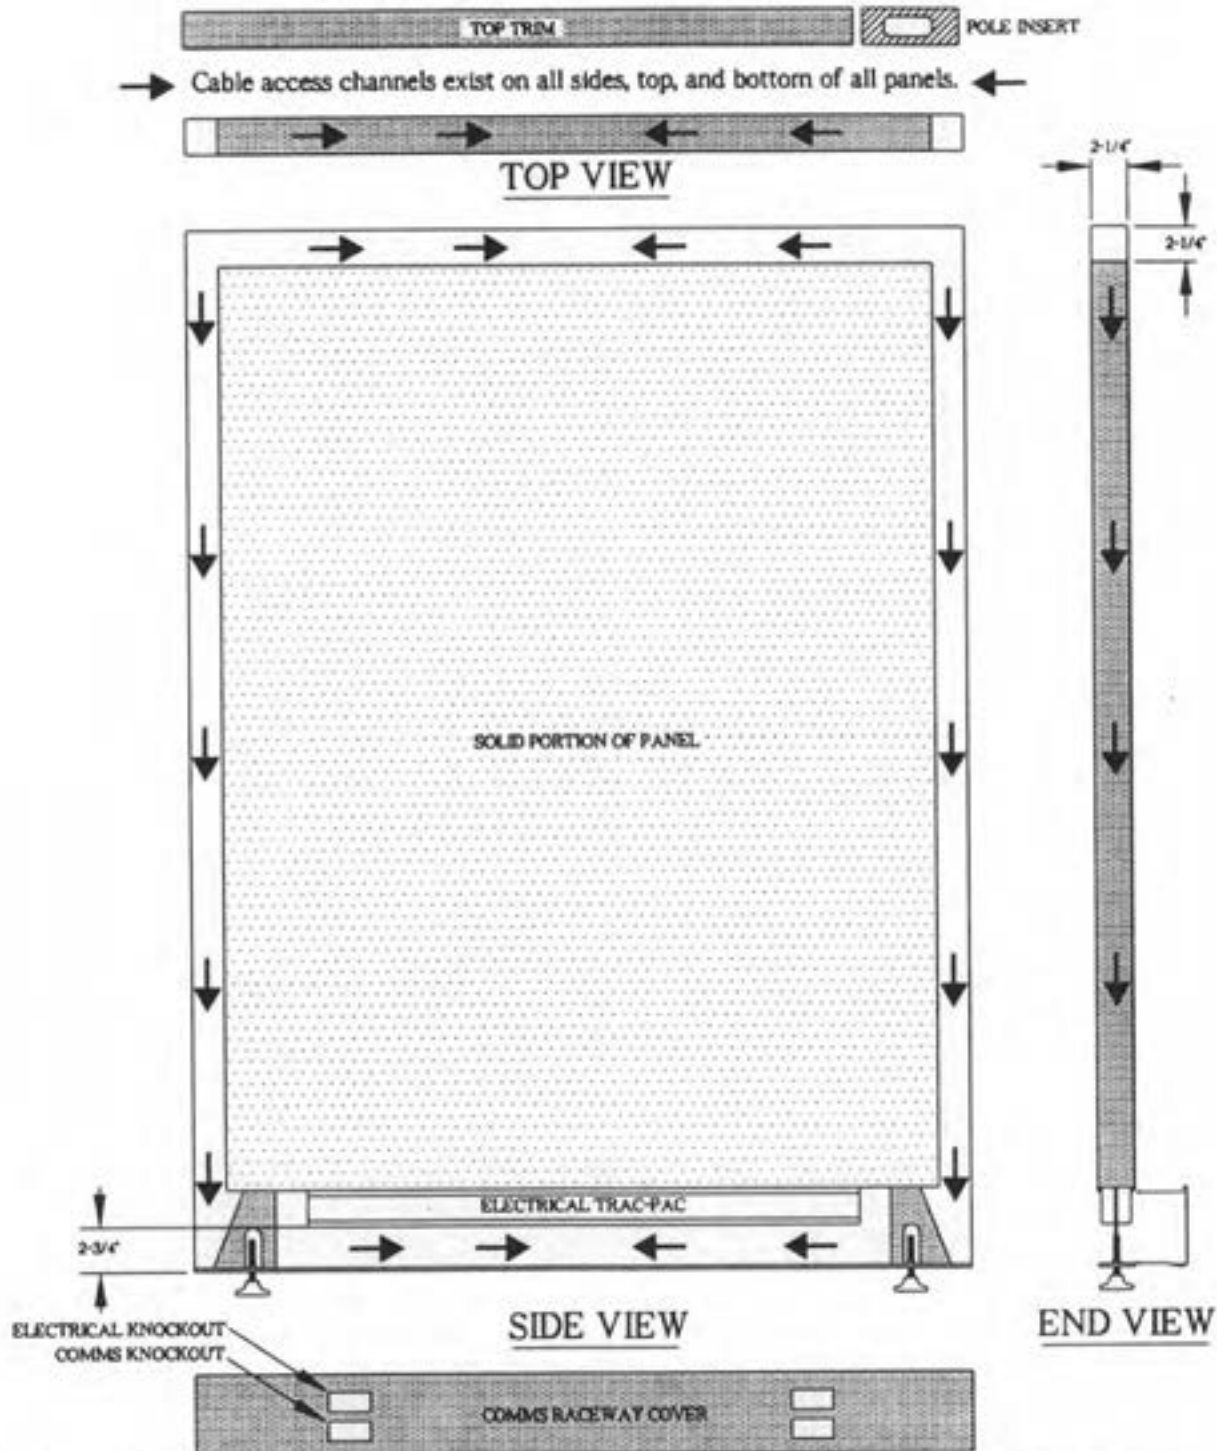

Step 7. Snap ends of power track into mounting clips under panel. Replace raceway covers.

TO REMOVE POWER ENTRY, FOLLOW STEPS IN REVERSE ORDER.

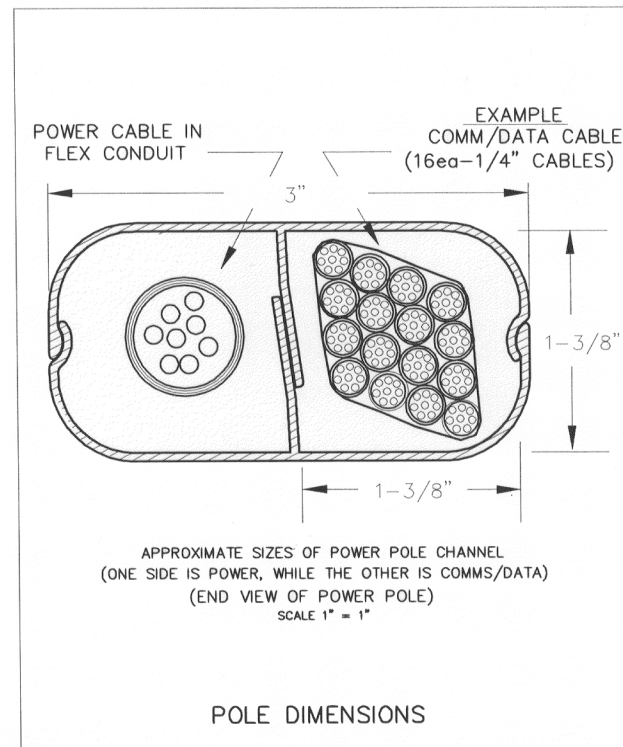

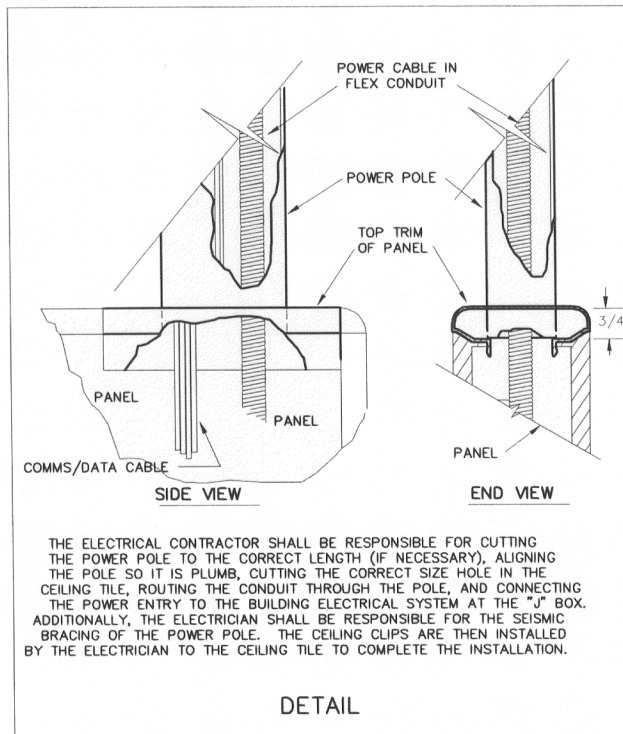

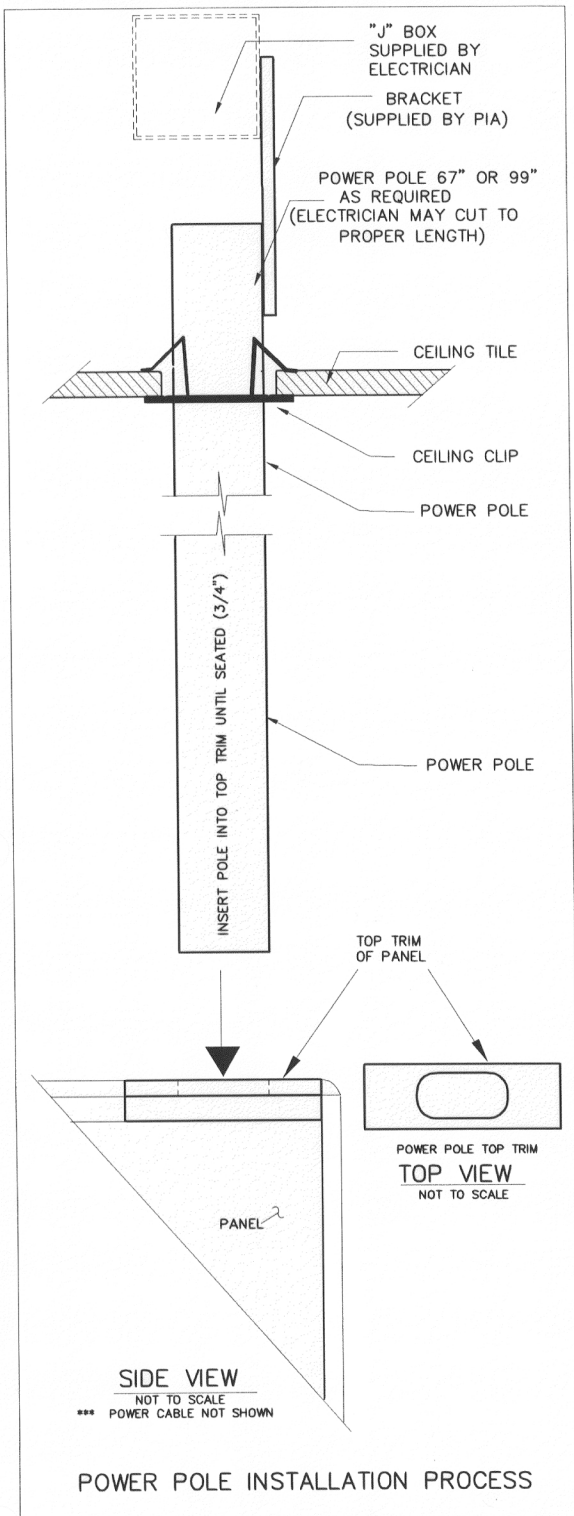

## POWER/DATA/COMMUNICATIONS CABLE ACCESS IN TOP OF PANEL

The power cable and data/comms cables are able to access any panel in either top corner.  
Do not cut top trim to access panel in any other location.

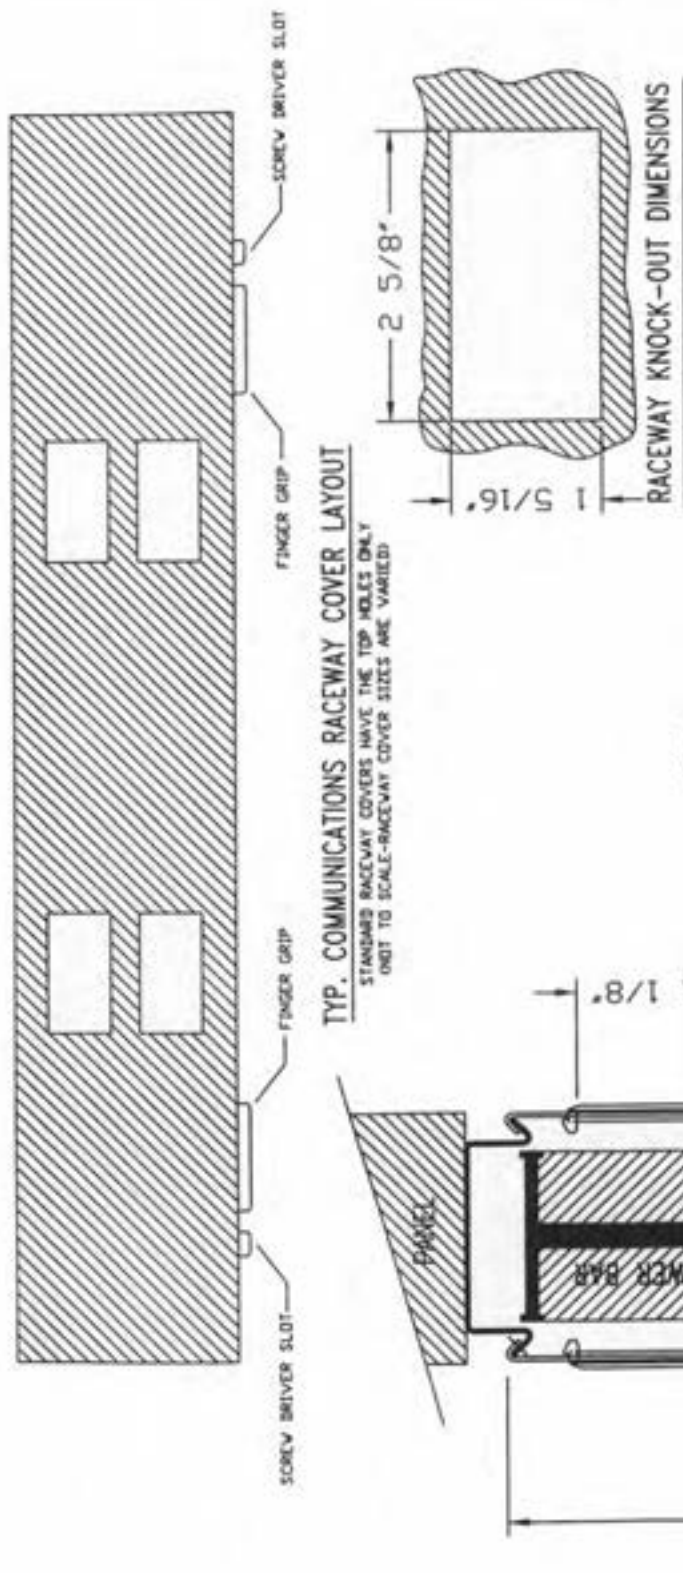

## POWER/DATA/COMMUNICATIONS CABLE ACCESS IN BASE OF PANEL

Comms cable may enter the panel system through comms knockout on the bottom of any panel with a comms raceway cover. Standard raceway covers may be modified in the area below the electrical track location by the cable vendor.

CALPIA CENTURY 2000---560 E. NATOMA ST.--FOLSOM, CA 95630  
(916) 358-2214 (916) 358-2663

**NOTE:****POWERED RACEWAY COVERS**

- 12" AND 18" COVERS HAVE NO POWER OUTLETS
- 24" AND 30" HAVE 1 POWER OUTLET
- 36" AND ABOVE HAVE 2 POWER OUTLETS

**COMMUNICATIONS RACEWAY COVERS**

- 12" AND 18" COVERS HAVE NO OUTLETS
- 24" AND 30" HAVE ONE POWER OUTLET AND ONE COMMUNICATION OUTLET
- 36" AND ABOVE HAVE TWO POWER OUTLETS AND TWO COMMUNICATIONS OUTLETS

SOME DATA MODULES  
 THAT WILL FIT ARE:

- PANDUIT
- AT & T
- LEVITON
- MOO-TAP

**TO REMOVE RACEWAY COVERS**

- INSERT A SCREWDRIVER INTO THE SLOT.
- LIFT UP ON THE HANDLE WITH LIGHT TO MODERATE FORCE, AT THE SAME TIME GRIP THE GRIPPER SLOT WITH THE TIPS OF YOUR FINGERS AND PULL OUTWARD.
- THE RACEWAY COVER WILL RELEASE FROM THE PANEL.
- REPEAT THIS ON THE OTHER END (DO NOT TRY TO FORCE THE COVER OFF FROM ONE END ONLY)

**END VIEW OF PANEL RACEWAY**

*Articulating*

Lighting

*Task Lighting*

*Adjustable*

*Attractive*

## LIGHTING PRODUCT SUMMARY

Task lighting is available in both fixed and articulating styles

### *features of Fixed task lights*

---

- Can be located under a shelf unit, flipper cabinet, counter top or mini-shelf
- Lights are low profile and color matched to the component to which they are attached
- The upgraded batwing lens with a white overlay evenly distributes the light over the work surface, helping to reduce glare. Less glare on the work surface helps reduce eyestrain and increases productivity.
- Upgraded with an Octron (T8) tri-phosphor lamp, the task lighting complies with the 1992 Energy Act
- Energy efficient lamps immediately realize a 20% energy cost saving
- Lamps are 3500K white/white
- Available in colors to match your trim
- Lamp length is equal to the fixture length

### *features of Articulating task lights*

---

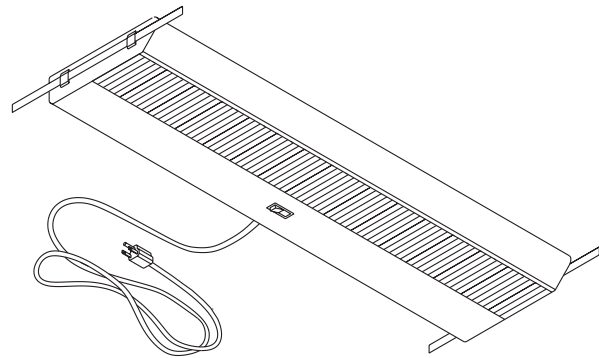

- Several mounting options are available: panel, clamp, freestanding and rail.
- All styles use an energy efficient 13W lamp
- Six foot quick disconnect cord
- Adjustable with one hand
- ADA complaint
- Adjusts with one hand
- Head pivots and rotates
- Can replace fixed task lights to reduce glare and increase energy efficiency
- Available in black only

## TASK LIGHT (FIXED) PRODUCT SUMMARY

### features

- Task lighting places the light source closer to the user
- Task lighting can be located under a shelf unit, flipper cabinet, counter top or mini-shelf
- Lights are low profile and color matched to the component to which they are attached
- The upgraded batwing lens with a white overlay evenly distributes the light over the work surface, helping to reduce glare. Less glare on the work surface helps reduce eye-strain and increases productivity
- Upgraded with an Octron (T8) tri-phosphor lamp, the task lighting complies with the 1992 Energy Act
- Energy efficient T8 lamps immediately realize a 20% cost savings
- Magnetic ballast is replaceable in the field
- Lamps are 3500K white/white

ITEM CODE	LIST PRICE
TL18	\$ 135
TL24	\$ 140
TL30	\$ 146
TL36	\$ 154
TL42	\$ 157
TL48	\$ 161

### To order, specify:

- trim color

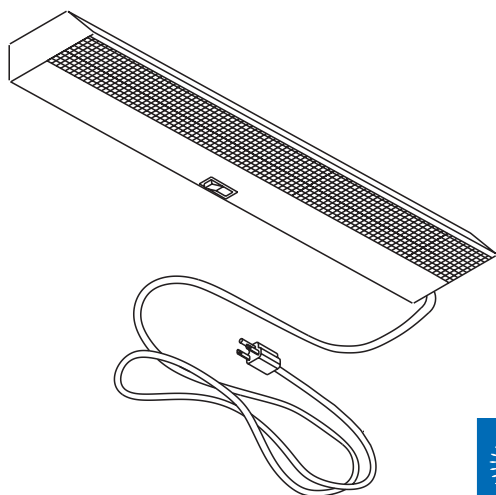

#### Design Note:

Task lights must be at least six (6) inches shorter than the shelf width. Specify TL48 lights for 54" and 60" components.

## COUNTER TOP/MINI-SHELF TASK LIGHTS

### features

- Only 4" deep and 1 1/2" thick
- Mount under either a mini-shelf or a counter top
- Energy efficient Octron (T8) tri-phosphor lamp complies with 1992 Energy Act
- Batwing lens with white overlay reduces glare and increases productivity
- Magnetic ballast is replaceable in the field
- Lamps are 3500K white/white

ITEM CODE	WIDTH	LIST PRICE
CTTL21	21"	\$ 75
CTTL41	41"	\$ 85

#### To order, specify:

- trim color
- laminate color

#### Design Tip:

Because this mounts directly under a laminate clad surface it is preferable to have the light coordinate with the laminate rather than the trim as is typically recommended for lights located under a shelf or flipper component. Unless otherwise noted the light color will be specified to coordinate with the laminate.

## ARTICULATING TASK LIGHTS

Articulating task lights direct the light where you need it.

### features

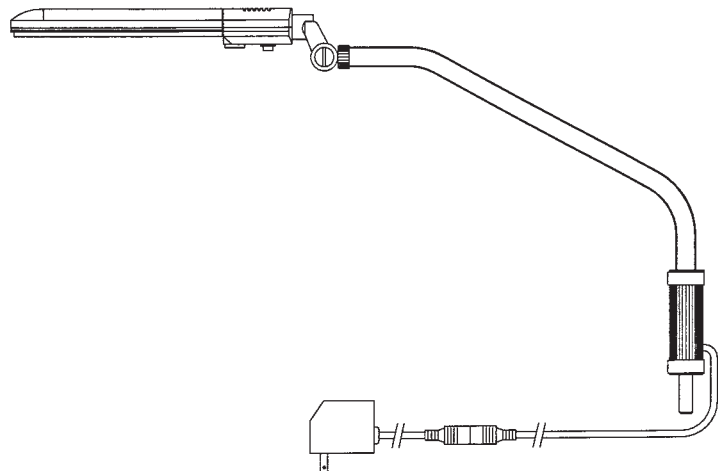

- Sound rating “A” is the quietest available
- 6 foot quick disconnect cord
- Compact fluorescent, 13 watt lamp with Color Rendition Index (CRI) of 85 and Color Temperature of 3500K
- Adjustable with one hand
- Head pivots and rotates
- ADA compliant
- Five mounting styles: panel, clamp, freestanding base, grommet, and rail (articulating lights are not installed)
- Available in Black only
- The “Railite” option mounts under a shelf unit or flipper cabinet. The single arm adjustable light can be positioned anywhere along the rail. The flexibility of the lighting system allows the user to move the light where it is needed and eliminates the traditional under the cabinet task light. “Width” denotes the width of the storage component.

ITEM CODE	DESCRIPTION	WIDTH	LIST PRICE
TLAS	Articulating task light, single arm	N/A	\$210
TLAD	Articulating task light, double arm	N/A	\$300
TLAR20	Articulating task light, single arm rail	24" & 30"	\$450
TLAR31	Articulating task light, single arm rail	36" & 42"	\$470
TLAR44	Articulating task light, single arm rail	48" & 54"	\$495
TLAR56	Articulating task light, single arm rail	60"	\$515

#### **Design Note:**

The TLAS and TLAD include a panel mounting bracket. If another mounting method is desired, it can be separately ordered through the PIA Accessories catalog.
