

CALPIA Century System Electric Underbodies Effective 12/21/12

CALPIA has added electric underbodies for modular system furniture. All new projects will assume standard workstation and work surfaces will be utilized unless specified on the Space Plan Drawings.

Electric underbodies will be indicated on project drawings provided by CALPIA and can be viewed on the CALPIA Specifications that list all individual components. The below listing is for straight and corner unit options with associated pricing. Electric underbodies listed below that are ordered in conjunction with a modular systems furniture project will receive the respective discount price.

List prices and discounts are subject to change without prior notice. Applicable prices are those prices in effect at the time of receipt of order or those established by awarded contract or bid.
