CALPIA utilizes URNER BARRY COMTELL, YELLOW SHEET and **POULTRY PRICE CURRENT REPORT** to determine the weekly base price (detail below). CALPIA then applies a production and transportation differential to arrive at the weekly finished goods price.

To establish prices, CALPIA utilizes the Thursday **URNER BARRY COMTELL PRICE CURRENT REPORT** under the category **FRESH CHICKEN PARTS** and **FROZEN CHICKEN PARTS**. CALPIA applies the **FRESH CHICKEN PARTS**, West Coast prices for all chicken products except the Formed Chicken Breast. CALPIA applies the **FROZEN CHICKEN PARTS**, West price for the Formed Chicken Breast. CALPIA will use the lowest listed price in each category. If the Urner Barry report does not list a price in any given week, the previous week's report is to be used as the base. Pricing is applied as of date of shipment.
