CALPIA utilizes URNER BARRY COMTELL, U.S. BEEF MARKET UPDATE and **U.S. POULTRY MARKET UPDATE REPORT** to determine the weekly base price (detail below). CALPIA then applies a production and transportation differential to arrive at the weekly finished goods price.

To establish prices, CALPIA utilizes the Thursday **URNER BARRY U.S. POULTRY MARKET UPDATE REPORT** under the category **FRESH CHICKEN PARTS** and **FROZEN CHICKEN PARTS**. CALPIA applies the **FRESH CHICKEN PARTS**, East prices for all chicken products except the Formed Chicken Breast. CALPIA applies the **FROZEN CHICKEN PARTS**, East price for the Formed Chicken Breast. CALPIA will use the lowest listed price in each category. If the Urner Barry report does not list a price in any given week, the previous week's report is to be used as the base. Pricing is applied as of date of shipment.

FOR DETAILED PRODUCT SPECIFICATIONS, PLEASE REFER TO THE CALPIA WEEKLY PRICE HISTORY.
