

# INDOOR FLAG SET ASSEMBLY INSTRUCTIONS

## INDOOR FLAG SET PARTS

SCREW EYE ON THE TOP POLE SECTION

FLAG SLEEVE TAB

TASSEL

SPEAR OR EAGLE FINIAL

STAND POLE BASE ADAPTER

## INDOOR FLAG SET ASSEMBLY STEPS

1. Locate the top pole section then locate the flag pole sleeve sewn into the flag. Feed the top pole section through the flag sleeve. The screw eye in the pole will appear at top edge of the flag.
2. Locate the tab inside the flag sleeve. Slip the tab over the screw to secure the flag on the pole. This prevents the flag from sliding down the pole.
3. To attach the tassel, fold the tassel cord in half, and thread the midpoint of the folded cord through the screw eye at the top of the pole. Thread both tassels through the loop formed by the tassel cord and pull tight.
4. Screw the finial to the top of the pole and screw the two pole sections together.
5. Slide the base adapter over the bottom end of the pole if needed for a secure fit. Place the completed assembly in the stand.
