

February 16, 2021

Dear Valued Customer,

The California Prison Industry Authority (CALPIA) would like to provide clarification on the expiration date on the Cleanse 62% Ethanol Alcohol Hand Sanitizer Gel. Stabilization testing was completed on the product produced between March 26, 2020 through present and the product met all requirements to extend the product's shelf-life.

Therefore, this product's expiration dates will now be extended to (36) thirty-six months or (3) three years from the date of manufacture. Please ensure to follow the storage recommendations in Section 7 of the Safety Data Sheet (SDS). Remember to rotate the stock of hand sanitizer to ensure the oldest product is used first.

If you have any questions, contact CALPIA Sales Department at (916) 323-2419 or your local CALPIA Sales Representative.

Sincerely,

RAYMOND MEEK

Assistant General Manager, Marketing and Regulatory Compliance Division
California Prison Industry Authority
