- Upholstered in top quality vinyl
- High resilient molded foam for both seat and back

MILANO Executive Chair Adjustments

Arm Rest

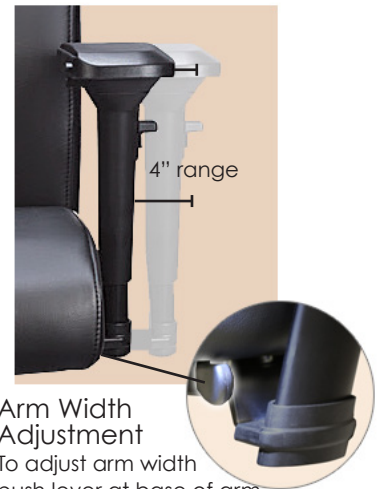

To adjust arm forward or backward, simply slide to desired position by pressing inside arm button.

3.5" range

Arm Height

To adjust activate the button on the outside of arm and raise or lower to desired height.

Arm Width Adjustment

To adjust arm width push lever at base of arm outward. Make desired adjustment and push lever back in place to lock.

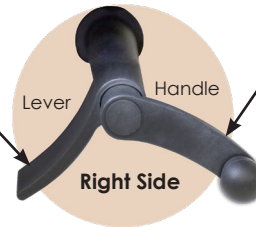

Arm Pivot

To adjust arm inward or outward by 30° grip arm and twist in the direction desired. Twist back to straighten.

Seat Height:

Place feet flat on floor while seated. To lower: lift the lever at the right front. To raise height, remove your weight from the seat while lifting lever.

Back Tilt Tension:

To adjust the back tilt tension, use the handle at the right of seat. To increase tension, turn the handle clockwise. To decrease, turn handle counter-clockwise.

Back tilt tension adjusts as needed

Synchronized Seat/ Back Tilt Adjustment:

Lift lever to unlock (stays up in unlocked position), lean back to adjust seat/back posture. Push the lever to lock in position. It can lock in 5 positions. It has the safety feature when you lift the lever to unlock. The back won't release immediately, preventing it from hitting your back. to change locking position, lean on back to give some pressure to disengage lock.
