NOVA

innovative task lighting

With its advanced technology and contemporary design, the Nova task light brings functionality and beauty to the everyday office. A custom (unique) lens and LED array create a uniform footprint of glare-free neutral light that can be dimmed with the touch of the finger. Hinges provide strength and stability in any position while allowing effortless on-hand adjustability. Energy Star-certified with a modern yet timeless design, Nova is a lighting solution for now and the future.

Features

Exceptional Light Quality

Nova keeps things easy on the eyes, producing a bright, glare-free light that faithfully renders colors and casts a single shadow across a surface. The fixture singlehandedly provides the recommended amount of desk illumination, negating the need for additional — and more costly — light sources.

Personal Control

Set your perfect brightness level. Nova's comprehensive Touch Dimming control allows you to seamlessly adjust the luminosity of the light to your personal preference.

Long Lasting Sustainability

Nova's LEDs are guaranteed to last at least 50,000 hours, with the fixture backed by CalPIA's 5 year warranty.

Energy Efficient

Nova features the highest efficiency LED chip on the market, requiring only a mere 7 watts to deliver a powerful 440 lumens of lights. Energy Star - certified, Nova contributes to LEED, WELL, and Living Building Challenge certifications.

Smarter Lighting

Forgot to turn the lights off? Nova has you covered. Each lamp features Smart Dimming technology that automatically turns the light off when no movement is detected, conserving energy and costs.

Endless Connectivity

Low battery life no longer needs to be a daily struggle. Nova's optional Wireless and Desktop Charging Base, complete with two USB ports, keeps your mobile devices conveniently charged throughout the workday.

Constant torque hinges allow for effortless movement, while ensuring stability and product longevity.

The bottom of the base has scratch resistant appliques and wire management tracks on the charging and wireless charging base.

LED and light guide package minimizes glare and creates perfectly uniform footprint of light. Easily adjust brightness levels with Touch Dimming, while the Smart Dimming feature remembers your brightness level for the next time you turn the light on. Occupancy sensor for energy conservation.

Product Size	Nova Standard: Lower Arm: 13.8" Upper Arm: 13" Reach: 28.85"
Color Rendering Index	90+
Color Temperature	3000K (warm white)
Life Span	50,000 hrs
Power Consumption	7 watts
USB Power Output	5V, 1A Max (each)
Dimming Range	14% - 100%
Color Options	Light Gray
Base Options	Desktop, Wall, Charging Desktop, Wireless Charging Desktop

Desktop base, charging desktop base and wireless charging desktop base are available as shown.
