 Nested Flip Top Tables in background shown with **Silver Base** and **Modesty Panels**
 All Flip Top Tables in this brochure feature **Nepal Teak Laminate**

FLIP TOP TABLE

High style meets unexpected functionality with the Flip Top Table. A tubular leg and blade-shaped foot in black or silver finishes make this table the perfect complement to a variety of settings.

The contemporary design makes them an eye-catching addition to any environment, but it's the way the nesting bases look when they are not in use that really turns heads.

Flip Top Tables feature a unique mechanism that rotates their legs as the tabletop is lifted. This leg rotation points the feet of the table slightly inward, allowing the tables to nest in a straight line. Leg-within-leg nesting reduces the footprint of a group of tables in storage without sacrificing legroom on either side of the furniture when in use.

KEY FEATURES

- Flip top allows for easy nesting, transport, and storage
- Leg rotation mechanism allows tables to nest in line
- 2 locking casters and 2 non-locking casters

OPTIONS

- 2 base finishes available: Black or Silver
- 12 laminate finish options with matching edge trim
- Rectangle tables available in 5 sizes
- Optional modesty pouch with pocket

FLIP TOP TABLE FEATURES

Optional Modesty Panel

The 3/4" thick panel measures 8" high by the length of the table. It is flexible, durable, and dent resistant. The modesty panel hangs freely when the table is in use or when nested in an upright position.

Velcro® Fastened Pouch

Modesty panel features a pouch on the user side for data management

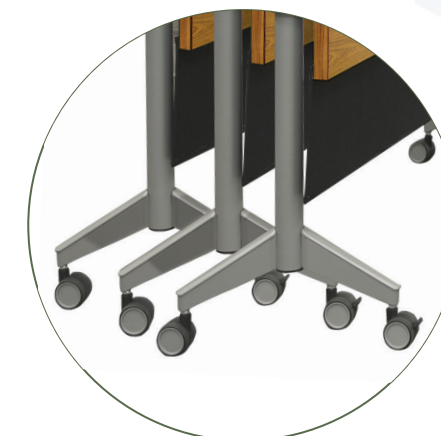

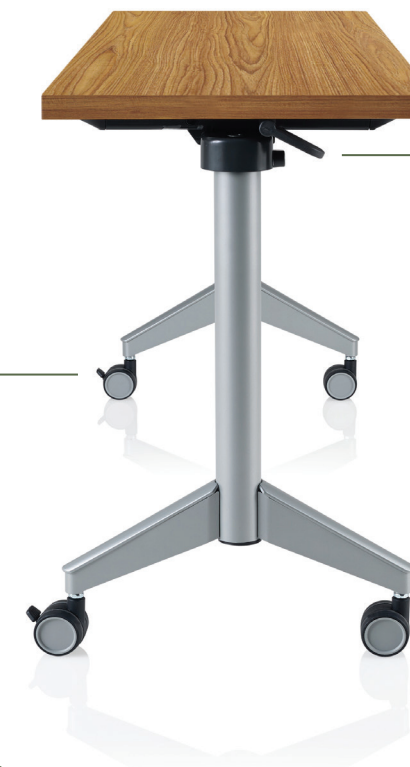

Paddle Lock

Table tops can be adjusted by pressing the paddle at either end of the table length. This allows the top to be lifted and the legs to articulate. Articulating legs reduce to footprint of the nested table stack.

Locking Casters

2 locking casters give the table stability when needed for flat surface usage or nesting.

Easy Nesting

Leg rotation mechanisms allow tables to nest neatly in line, making the Flip Top Table simple to store and transport.

Ganging Bracket

Flip top tables include an easy to use ganging bracket to secure multiple tables together. Simply snap the pivot end of the ganging hook onto the peg closest to the table end of either table. Then rotate the hook onto the nylon peg of the adjoining table.

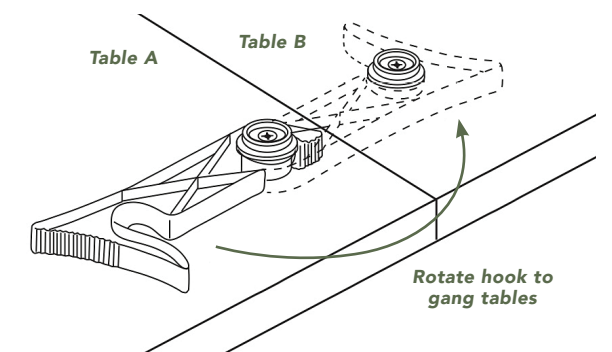

TABLE TOP SIZES

ITEM NO.	MEASUREMENTS
#543101	60" x 18"
#543102	60" x 24"
#543103	60" x 30"
#543100	72" x 24"
#543104	72" x 30"
